OFFICIAL

Service Centre Demand

Service Centre Demand

The volume of 101 calls answered has remained at relatively consistent levels this week. The volume of 999 calls showed an increase over the weekend thereafter returning and slightly decreasing over the remainder of the week.

Crime Levels

Crime Volume (9 March – Present compared to Previous Year)

Crime has continued to trend at levels lower than the seasonal average, and total volume year to date is still considerably lower than last year. Total 'Year to Date' volume is displayed below, further data is available in the Crime slide.

Coronavirus Legislation

Co-operation with new Coronavirus Legislation

The below chart is indicative of the co-operation levels experienced by police over the last 7 days. The vast majority of interactions between police and the public continue to be resolved without enforcement.

Total Number of Enforcement Activity Relating to Coronavirus Legislation

Enforcement Activity over last 7 days	2
---------------------------------------	---

Incident Demand

Incident Demand

Incident volume has fluctuated this week, showing a sharp decrease from the 22nd before remaining a relatively consistent level thereafter. Overall incident volume continues to show lower levels compared to the same time last year.

Staff Absence and Welfare

Absences

Absences are now generally trending lower when compared to 2019. However there has been an increase in absences towards the end of the reporting period.

Staff COVID Screening

Testing of key workers for COVID-19 continues and the number of tests arranged for Police Scotland employees is broken down later in this report.

Total Referrals To Date

Home Office Travel Regs. Referrals	168
Public Health Scotland Travel Regs. Referrals	115
FPNs issued for breach of Travel Regs.	1

Note: The referral figures are a count of reports submitted to Police Scotland. These will therefore vary from counts of the number of individuals.

Total Crime by Division

■ 2019/20 ■ 2020/21

All Crime Groups (with the exception of Group 5) show a decrease in volume when compared to the same period in 2019. All Divisions continue to show a cumulative decrease in volume when compared to the same time period in 2019.

Weekly Legislation Co-operation (20th - 26th August 2020)

Weekly Cooperation Levels

Interaction Totals (Preceding Week)

An 'interaction' is any instance where a Police Officer has reason to engage with a person who is not conforming with Legislation. Only when all efforts to encourage co-operation fail will Police Officers resort to enforcement.

Weekly Intervention Locations

Interaction Times (Preceding Week)

In response to the introduction of The Health Protection (Coronavirus) (Restrictions) (Scotland) Regulations 2020 and Coronavirus Act 2020, Police Scotland developed a 'Coronavirus Interventions' (CVI) recording system. This system allowed Police Scotland to begin gathering data in relation to the public co-operation levels with the new legislation. This system relies on Police Officers manually updating the system with the co-operation level when they encounter an individual in contravention of the new legislation.

Due to the manual input required to form this data set, the contents of this slide are indicative only. Actual figures will differ from those recorded on Crime Systems (please see slide 11), may be subject to change, and cannot be considered Official Police Statistics. They do provide an indication of the public co-operation levels across Scotland.

Coronavirus Legislation Co-operation (27th March – 26th August 2020)

All Time Cooperation Levels

Interaction Totals (All Time)

'Enforcement' of Coronavirus specific legislation

The following is a summary of all 'enforcement' action in relation to both The Health Protection (Coronavirus) (Restrictions) (Scotland) Regulations 2020 and Coronavirus Act 2020. This includes all Fixed Penalty Notices issued and processed by Police Scotland. It also includes all occasions that a charge was libelled and recorded on Police Scotland's Crime Recording System against a person in relation to the aforementioned legislation. This is a true value of the volume of recorded 'enforcement' activity, but does not provide the granularity of the Coronavirus Intervention (CVI) recording system and does not capture the earlier phases of the '4 E's' approach. These values remain subject to change as offences are retrospectively added or amended and do not match the indicative 'enforcement' values from the CVI recording system.

Near Miss and Testing Data (w/e 23rd March – 17th August 2020)

‘Near miss’ forms in the context of the pandemic situation may be submitted for a variety of reasons. i.e. when officers are potentially exposed to: COVID-19 whilst not wearing PPE, where PPE malfunctions, or in any other instance an officer feels a risk to themselves in a specific occurrence relating to COVID-19.

This can occur due to the reactive nature of policing, as well as being influenced by training levels and supply of PPE.

The amount of forms submitted continues to be attributable to the process for requesting an asymptomatic COVID-19 screening test due to an occupational risk, requiring the submission of a ‘near miss’ form. Many of the reports would not have been submitted without this requirement. The number of incidents where a lack of PPE is identified has not risen.

***Near Miss Data is only available up to 17th August 2020. Updated figures should be available for publication in next weeks bulletin.**

Testing Data (7th April – 27th August 2020)

Symptomatic Testing

Asymptomatic Testing Referrals

Police Scotland Testing Data

Locally arranged tests may refer to Divisional arrangements, self arranged tests or those arranged by the NHS.

*Work has been undertaken resulting in some duplication of results being corrected which has resulted in a drop, particularly with regards to self referral reporting data, of positive and some negative cases.

*Please note that individuals who are 'traced' are not always deemed suitable for testing and suitability is determined by the NHS. These tests are not arranged by Police Scotland. For those who have been tested within Phase 3, we have recorded the result accordingly.

*Please note Testing Data is now being reported weekly. The last Testing data report was received on 24th August 2020 and includes tests arranged up to and including 27th August 2020.

Custody Volume

The below line graph displays the total custody volume over time. The number of custodies fell on the approach to 'lockdown', reaching their lowest level on 29th March. Since that date Custodies have steadily increased and now show a consistent pattern.
