OFFICIAL

Service Centre Demand

Service Centre Demand

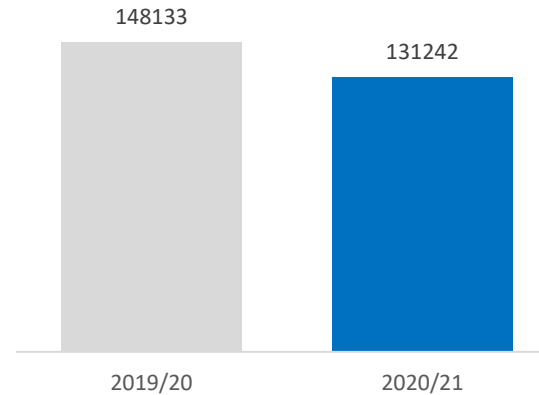

The volume of 101 calls answered has remained at a relatively consistent before increasing towards the end of the reporting period. The volume of 999 calls answered had seen an increase at the weekend and largely differed from levels observed last year.

Crime Levels

Crime Volume (19 March – Present compared to Previous Year)

Crime has continued to trend at levels lower than the seasonal average, and total volume year to date is still considerably lower than last year. Total 'Year to Date' volume is displayed below, further data is available in the Crime slide.

Coronavirus Legislation

Co-operation with new Coronavirus Legislation

The below chart is indicative of the co-operation levels experienced by Police over the last 7 days. The vast majority of interactions between Police and the public continue to be resolved without enforcement.

Incident Demand

Incident Demand

Incident volume this week has remained at a relatively consistent level but shows lower levels compared to the same time last year. This has also seen an increase from the previous week.

Staff Absence and Welfare

Absences

Absences are now trending lower when compared to 2019.

Staff COVID Screening

Testing of key workers for COVID-19 continues and the number of tests arranged for Police Scotland employees is broken down later in this report.

Total Number of Interactions Relating to Coronavirus Legislation

The below chart is indicative of the total number of FPNs issued and charges labelled since the introduction of the new legislation.

Weekly Coronavirus Legislation Co-operation (18 June – 24 June 2020)

Weekly Cooperation Levels

Interaction Totals (Preceding Week)

An 'interaction' is any instance where a Police Officer has reason to engage with a person who is not conforming with Legislation. Only when all efforts to encourage co-operation fail will Police Officers resort to enforcement.

Weekly Intervention Locations

Interaction Times (Preceding Week)

In response to the introduction of The Health Protection (Coronavirus) (Restrictions) (Scotland) Regulations 2020 and Coronavirus Act 2020, Police Scotland developed a 'Coronavirus Interventions' (CVI) recording system. This system allowed Police Scotland to begin gathering data in relation to the public co-operation levels with the new legislation. This system relies on Police Officers manually updating the system with the co-operation level when they encounter an individual in contravention of the new legislation.

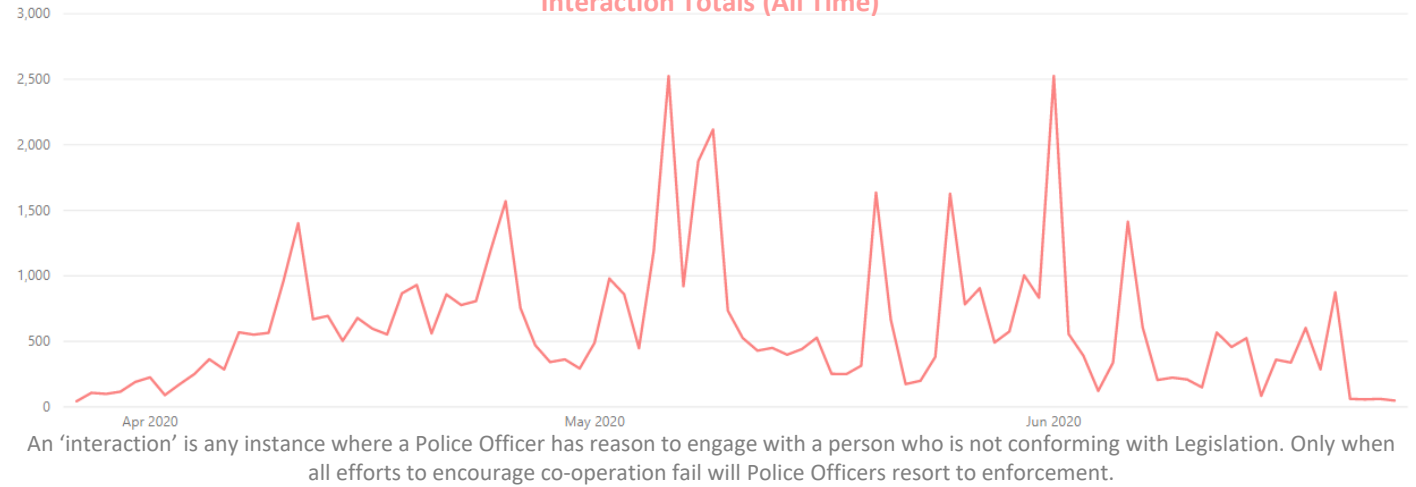

Due to the manual input required to form this data set, the contents of this slide are indicative only. Actual figures will differ from those recorded on Crime Systems (please see slide 11), may be subject to change, and cannot be considered Official Police Statistics. They do provide an indication of the public co-operation levels across Scotland.

'Enforcement' of Coronavirus specific legislation

The following is a summary of all 'enforcement' action in relation to both The Health Protection (Coronavirus) (Restrictions) (Scotland) Regulations 2020 and Coronavirus Act 2020.

This includes all Fixed Penalty Notices issued and processed by Police Scotland. It also includes all occasions that a charge was libelled and recorded on Police Scotland's Crime Recording System against a person in relation to the aforementioned legislation. This is a true value of the volume of recorded 'enforcement' activity, but does not provide the granularity of the Coronavirus Intervention (CVI) recording system and does not capture the earlier phases of the '4 E's' approach.

These values remain subject to change as offences are retrospectively added or amended and do not match the indicative 'enforcement' values from the CVI recording system.

Near Miss and Testing Data (w/e 23 March – 22 June 2020)

‘Near miss’ forms in the context of the pandemic situation may be submitted for a variety of reasons. i.e. when officers are potentially exposed to: COVID-19 whilst not wearing PPE, where PPE malfunctions, or in any other instance an officer feels a risk to themselves in a specific occurrence relating to COVID-19.

This can occur due to the reactive nature of policing, as well as being influenced by training levels and supply of PPE. The number of forms have decreased over the last week.

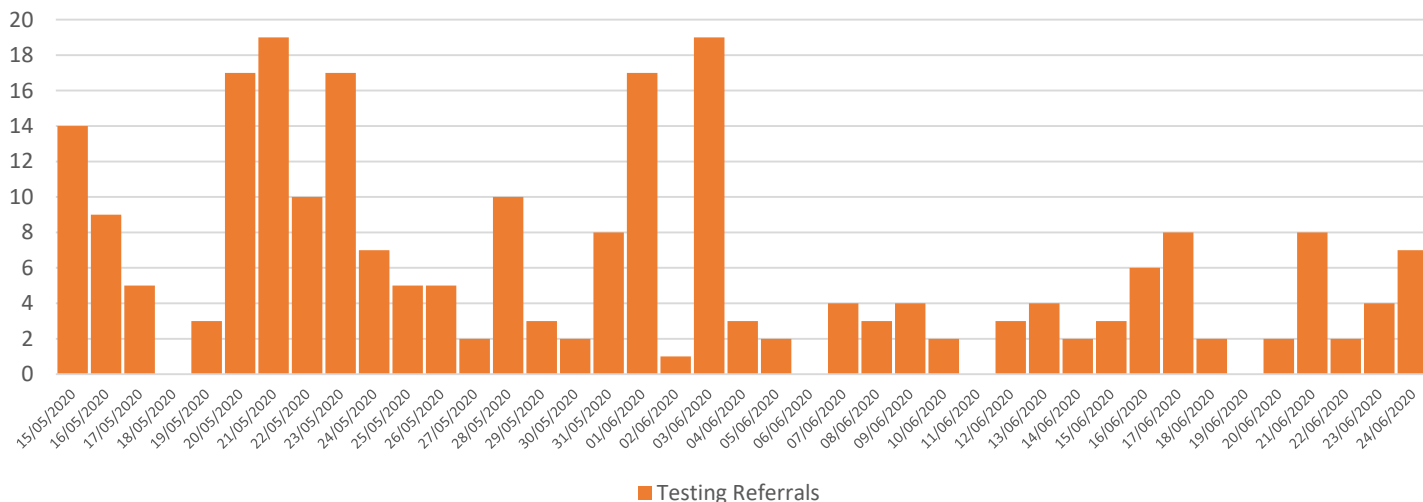

The amount of forms submitted continues to be attributable to the process for requesting an asymptomatic COVID-19 screening test due to an occupational risk, requiring the submission of a ‘near miss’ form. Many of the reports would not have been submitted without this requirement. The number of incidents where a lack of PPE is identified has not risen.

Locally arranged tests may refer to Divisional arrangements, self arranged tests or those arranged by the NHS.

Custody Volume

The below bar chart displays the custody volume in each custody centre weekly. In this chart the blue bar represents the volume over the last 7 days, and the grey bar represents the 7 days prior to that. As can be seen, custody volume has decreased this week when compared to last week.

Custody Volume

The below line graph displays the total custody volume over time. As can be seen, the number of custodies fell on the approach to 'lockdown', reaching their lowest level on 29th March. Since that date Custodies have steadily increased.
