OFFICIAL

Please note that a reportable collision is defined under Section 170 of the Road Traffic Act 1988 and describes the legal responsibility on those drivers involved to report the matter to the police. Where those involved exchange personal details, there is no legal requirement to report a collision to the police and this applies particularly to non-injury collisions.

As such, there may have been other collisions within the location of your request, which were not reported to Police Scotland, nor which required a collision report to be created, and will therefore not be included within the statistics.

Please be advised that the number of casualties may vary from the number of collisions, as each collision may have multiple casualties.
