1. PURPOSE

1.1 This Standard Operating Procedure (SOP) supports the Police Service of Scotland, (hereafter referred to as Police Scotland) Records Management Policy.

1.2 The purpose of this Standard Operating Procedure (SOP) is to define specific retention rules for the records held by Police Scotland.

1.3 The application of these rules will ensure good business practice and also compliance with the relevant legislation and standards including, but not limited to:

- The Public Records (Scotland) Act 2011
- The Freedom of Information (Scotland) Act 2002
- The Data Protection Act 2018

1.4 The retention rules have been produced following consultation with the relevant business areas across Scotland and are based on either relevant legislation or existing good practice within and outwith Police Scotland.

1.5 In particular, the objectives of the SOP are as follows:

- To identify those records worth preserving
- To identify vital records for business continuity
- To prevent premature destruction of records
- To prevent unnecessary retention of records
- To ensure a consistent approach to record keeping where there are no statutory requirements
- To contribute to good records management as part of a wider programme
- To promote public confidence and understanding in records held by the Police Service of Scotland

1.6 Further guidance (including forms) is available for former Strathclyde Police staff in Appendix ‘G’

2. PROCEDURE

2.1 DEVELOPMENT AND APPLICATION OF THE RETENTION RULES

2.1.1 Prior to the existence of this SOP, the relevant guidance with regard to record retention was the ACPOS Recommended Record Retention Schedule.

2.1.2 This document was either adopted in full by the former Scottish Forces or used as the basis for the development of a local, Retention Schedule. It is therefore recognised that pre-existing Force agreements and guidance may result in variations or deviations from the rules outlined in this SOP.

2.1.3 In such cases, this will be stipulated in the relevant geographical appendix to this document. Likewise, in cases where a local policy has been developed in the
absence of any specific provision within these guidelines, this should also be stipulated in the relevant geographical appendix.

2.1.4 The ACPOS Recommended Record Retention Schedule was developed over a number of years and, prior to its creation in 2004, the various Scottish Forces/Agencies/geographical divisions had addressed record retention individually and had often adopted different retention criteria. This resulted in similar documents being retained for different time periods and, understandably, it may take some time before the effects of previous Force/agency retention policies no longer apply.

2.1.5 This may however, result in records now recommended for retention having previously been destroyed. This is unavoidable however the creation of standard retention rules will ensure greater commonality of approach in the future.

2.1.6 The retention rules are separated into broad functional areas within this SOP. Activities may be structured differently in each Local Policing Area, but this should not prevent the application of the rules.

2.1.7 The retention rules are intended to be independent of any particular format or media of records and information and cover manual records including paper, microfilm, microfiche, DVDs, audio and video tapes as well as digital information including databases, SMS, mobile data (PDAs), spreadsheets, word processed documents and email. Generally, notwithstanding the method of recording information, the same retention policy should be applied.

2.1.8 Retention rules are for master sets of records only. Duplicate records may be destroyed at any point appropriate to the work of the organisation. However, heavily annotated records cannot be considered duplicates and must be maintained using the same rules as the master records.

2.1.9 Records whose disposal is recorded as “Archive” may be deposited with the appropriate local Archive Service when their operational and/or administrative usefulness has come to an end. To this end, Police Scotland will enter into agreements with appropriate Archive Services for the deposit of those records of permanent, ie historical value to the communities we serve.

2.2 RECORD DISPOSAL PROCESS

2.2.1 Unless subject to a review or an exemption, records must be disposed of as soon as practically possible once their retention period has ended and this includes backup copies stored on alternative media.

2.2.2 Failure to do so will bring the Service into conflict with legislative and regulatory requirements.

2.2.3 The rules defined in this SOP do not prevent the retention of individual records in the event of demonstrable ongoing activity - including, for example, requests in terms of the Freedom of Information (Scotland) Act 2002 and the DPA 2018 among others.

2.2.4 Disposal methods will vary depending on the media on which the record is held.
2.2.5 The s.61 Code of Practice under the Freedom of Information (Scotland) Act 2002 requires a list of destroyed records to be retained (refer to ‘Administration 9.5’ for further details).

2.2.6 This process will vary, depending on for example, whether the records are held within a Service system which automates the disposal process or whether the records are manually disposed of from a shared drive or paper filing system. As a minimum however, the Service must be able to provide evidence that as part of routine records management processes, disposal of a specified type of record of a specified age range took place in accordance with a specified provision of this SOP.

2.2.7 In the case of Service systems where the process is automated, the functionality and process should be detailed in the associated documentation. In the case of records manually disposed of, a list must be complied.

2.2.8 When compiling such a list, an assessment must be made as to whether it is appropriate to maintain the record of destruction at file or at series level.

2.2.9 Whilst it is appropriate to record the destruction of individual policy files at file level, there are certain police records, for example intelligence files or crime recording data, where it is inappropriate to maintain a record of individual files (which are indexed by name) once they have been destroyed.

2.2.10 Consequently, series level descriptions will be used to record destruction of records, particularly in electronic format, where the file title is dependent upon persons’ names.

2.2.11 Where the decision is to record series level only, the record of destruction should indicate the type of file or dataset, reason for destruction and date of destruction in accordance with s.61 Code of Practice under the Freedom of Information (Scotland) Act 2002.

2.2.12 Where records that are subject to series level destruction are retained, an exception list will be noted.

2.3 RECORD REVIEW PROCESS

2.3.1 Whilst the majority of records listed in the guidelines are to be destroyed at the end of the specified period, others are instead scheduled for ‘review’.

2.3.2 These records will be assessed for ongoing operational relevance or for historical significance. The review process will determine whether records should be destroyed, retained for a further period before being reviewed again, or preserved permanently.

2.3.3 It should be noted that in the case of Crime records and Public Protection records, particular criteria for review are specified in the guidelines.

2.3.4 The decision to retain records following a review will be recorded, and the reviewer will stipulate the period after which the records will be reviewed again. The method of recording review outcomes will vary according to record type, but includes:
- Recording an action on the register/inventory used to control the records (hard copy or electronic)
- Completing a relevant field within an electronic system
- Endorsing the exterior of a hard copy file

2.3.5 The following list of questions is intended to assist staff in the evaluation of records either marked as ‘review’ within this document or where no specific guidance is provided.

2.3.6 The guidance issued below cannot be substituted for retention periods stipulated in the Retention Schedule as ‘Archive’ or ‘Destroy’. If you feel that the retention in the schedule is not appropriate for particular documents you must contact the Records Manager. If changes have occurred to the way information is collected and documented, resulting in a new set of records, this must be notified to the Records Manager for inclusion in the retention schedule. Therefore this list is not for use with new record series, datasets, etc.

1. Are there any outstanding enquiries about this subject?
   - Yes  Records can be reviewed but under the FoI (2002) Act cannot be destroyed until the enquiry has been completed.
   - No   Go to question 2

2. Is it listed in this Record Retention SOP?
   - Yes  Destroy or archive as instructed by the SOP. If you are unhappy with this guidance or feel circumstances have changed that might affect retention, contact the records manager.
   - Review, go to question 3
   - No   Go to question 3

3. Is the document the original copy? (i.e. master record, not held on any other format or in any other location)
   - Yes  Go to question 4
   - No   Destroy, the original can be referenced if necessary

4. Is this a new record series?
   - Yes  Contact Records Manager to add to retention schedule
   - No   Go to question 5

5. Does it reflect or impact on the employment of a member of staff?
   - Yes  Refer to personnel/complaints/absence/occupational health section of retention schedule
   - No   Go to question 6

6. Does it refer to an accident or injury to either a member of staff or a member of the public? (Including possible insurance claim)
   - Yes  Refer to health & safety section of retention schedule
7. Is it required as evidence/case-related?
   Yes  Retain as per the remainder of the case
   No  Go to question 8

8. Are we legally obliged to keep the document for a specific time?
   Yes  Use the retention period stipulated in the legislation
   No/Don’t Know  Go to question 9

9. Is there professional guidance or best practice to reference?
   Yes  Use the retention period stipulated in the guidance
   No/Don’t Know  Go to question 10

10. Is it part of a financial audit trail?
    Yes  Retain for C + 6 years
     No  Go to question 11

11. Does it show a change in Service policy?
    Yes  Archive
     No  Go to question 12

12. Does it show a major decision or execution of an order?
    Yes  Retain for C + 5 years
     No  Go to question 13

13. Does it refer to a particular project?
    Yes  Destroy ephemera, working papers, duplicated information, basic administration, arrangements & housekeeping. Archive PID, final report, etc
     No  Go to question 14

14. Is it general correspondence to a member of the public or external agency?
    Yes  Destroy C + 3 years
     No  Go to question 15

15. Is the document regularly accessed for work purposes?
    Yes  Retain and review after 1 year
     No  Are there any upcoming projects that might use this project? If yes, go to question 16, if no destroy after current year + 2

16. Does it reflect significantly the history of the former Forces or Police Service of Scotland?
    Yes  Archive
     No  Go to 17

17. Are the related records and files destroyed?
18. Refer to supervisor and/or Records Manager for advice

3. **ROLES AND RESPONSIBILITIES**

3.1 Records Management are responsible for the regular review of this SOP and will incorporate new categories of records within the document as they emerge over time.

3.2 In particular, where records are referred to in a geographical appendix to this document but do not appear in the main document, efforts will be made to consult with the appropriate business areas with a view to agreeing an appropriate, national retention period suitable for inclusion in the SOP.

3.3 Officers and staff who identify anomalies or omissions should contact Records Management in the first instance, outlining the issue or their suggestions.

3.4 Records Management will consider any proposal, in terms of relevant legislation and best practice, and will update the SOP where appropriate.

</table>
6.1 RETENTION, REVIEW AND DISPOSAL OF CRIME RECORDS

6.1.1 Based on the definitions below, every case will fall into one of three general categories:

- **Serious unresolved cases** - retain until case is resolved
- **Serious resolved cases** - retain for current year + 12 years from the date made known to the police
- **Standard cases (resolved & unresolved)** - retain for current year + 6 years from the date made known to the police

(Where a case is resolved more than 12 months after the date made known to the police, substitute this date with the date on which the matter was reported to the relevant prosecuting authority)

6.1.2 Where appropriate however, as defined further in this document, a case may be subject to review based on certain criteria and retention may then be extended as appropriate.

6.1.3 Furthermore, where a case is the subject of a notified appeal, dispute, complaint or civil litigation or where notification to preserve records has been received from the Scottish Criminal Cases Review Commission (SCCRC), disposal must be suspended until the outcome is known.

6.1.4 Resolved cases include all detected cases and those where it has been established that no crime has taken place as well as, for example, those cases which either result in a not proven or not guilty verdict but where enquiries have been concluded to the satisfaction of the investigating Force.

6.1.5 Unresolved cases include all undetected cases as well as, for example, those where the case is detected but the offender has absconded or cannot yet be brought to justice. Additionally, homicide cases that result in a not guilty verdict or acquittal must be treated as ‘unresolved’ as a result of the Double Jeopardy (Scotland) Act 2011.

6.2 SERIOUS CRIME ENQUIRIES

6.2.1 Investigations into any of the crimes listed below will be classed as ‘Serious Crime Enquiries’. **Unresolved cases** will be retained until the case is resolved and **resolved cases** are subject to a retention period of current plus 12 years.

**Murder, Culpable Homicide (including statutory) & Drug Related Deaths**

- Any contravention of Sections 1 or 3A of the Road Traffic Act 1988
- Any Drug Related Death as defined in the 1994 Scottish Office Ministerial Drugs Task Force Report

**Serious & Series Sexual Offences**

The following crimes and offences in all circumstances:
The Sexual Offences (Scotland) Act 2009:¹

- Section 1 (rape)
- Section 18 (rape of a young child)
- Section 19 (sexual assault on a young child by penetration)
- Section 20 (sexual assault on a young child)
- Section 21 (causing a young child to participate in a sexual activity)
- Section 22 (causing a young child to be present during a sexual activity)
- Section 23 (causing a young child to look at a sexual image)
- Section 24 (communicating indecently with a young child etc.)
- Section 25 (sexual exposure to a young child)
- Section 26 (voyeurism towards a young child)
- Section 28 (having intercourse with an older child) Section 29 (engaging in penetrative sexual activity with or towards an older child)
- Section 30 (engaging in sexual activity with or towards an older child)
- Section 31 (causing an older child to participate in a sexual activity)
- Section 32 (causing an older child to be present during a sexual activity)
- Section 33 (causing an older child to look at a sexual image)
- Section 34 (communicating indecently with an older child etc.)
- Section 35 (sexual exposure to an older child)
- Section 36 (voyeurism towards an older child)
- Section 42 (Sexual abuse of trust)
- Section 46 (Sexual abuse of trust of a mentally disordered person)

The Protection of Children and Prevention of Sexual Offences (Scotland) Act 2005

- Section 1 (meeting a child following certain preliminary contact)
- Section 9 (paying for sexual services of a child)
- Section 10 (Causing or inciting provision by child of sexual services or child pornography)
- Section 11 (Controlling a child providing sexual services or involved in pornography)
- Section 12 (Arranging or facilitating provision by child of sexual services or child pornography)

The Criminal Law (Consolidation) (Scotland) Act 1995:

- Section 8 (abduction of girl under 18 for the purposes of unlawful intercourse)
- Section 10 (person having parental responsibilities causing or encouraging sexual activity in relation to girl under 16)

The Mental Health (Scotland) Act 1984:

¹ The following crimes and offences abolished under the Sexual Offences (Scotland) Act 2009 are categorised as serious: rape at common law; clandestine injury to women; sodomy; indecent assault (when committed against a child); lewd, indecent or libidinous practice or behaviour (when committed against a child); Section 3 of the Sexual Offences (Amendment) Act 2000 (c.44) (abuse of position in trust) (where the offender was 20 or over); Section 311(1) (non-consensual acts) and Section 313(1) (persons providing care services: sexual offences) of the Mental Health (Care and Treatment) (Scotland) Act 2003.
- Section 106(1) (protection of mentally handicapped females)
- Section 107(1) (protection of patients)

**The Civic Government (Scotland) Act 1982**

- Section 52 (taking and distribution of indecent images of children)
- Section 52A (possession of indecent images of children)

The following crimes and offences when committed against a child:

**The Sexual Offences (Scotland) Act 2009:**

- Section 2 (sexual assault by penetration)
- Section 3 (sexual assault)
- Section 10 (administering a substance for sexual purposes)

**The Criminal Law (Consolidation) (Scotland) Act 1995:**

- Section 1 (incest) (excluding circumstances where all parties are children and willing participants)
- Section 2 (intercourse with a step child)

Abduction of a woman or girl with intent to rape
Assault with intent to rape or ravish.

**Serious Violence**

Any serious assault where:

- There is involvement of a firearm or imitation
- A victim suffers significant permanent impairment or disfigurement
- There has been endangerment to life

**Abduction Involving Extortion**

Including cases where the abduction is resolved prior to any demand being issued but evidence or intelligence exists to suggest the motive was extortion

**Any Act of Terrorism**

**High Value Acquisitive Crime**

This category includes:

- Robberies involving cash or property to the value of £50,000 or more
- Non-violent acquisitive crime and cases of seizure or restraints under the Proceeds of Crime Act 2002 involving cash or property to the value of £100,000 or more

This category does not normally include acquisitive crimes involving clandestine possession (eg Section 178 Road Traffic Act 1988)
Major Drug Trafficking

This category includes:

- Enquiries involving the importation or exportation of controlled drugs (including offences under Customs and Excise Management Act 1979)
- Any case of domestic (UK) drug trafficking involving a monetary street value of £100,000 or more

6.2.2 On conclusion of a case or at any point during the retention period however, the retention of a serious case record may be extended by a further six years followed by review, where the case meets any of the following criteria:

- Do the records contain information necessary for the prevention and detection of crime or apprehension and prosecution of offenders which is not otherwise available, eg on CHS or PNC
- Did the case involve a custodial sentence in excess of twelve years?
- Did the case involve as yet unidentified forensic evidence?

6.2.3 All cases where a decision has been made either to destroy the case records or extend the retention period, the decision-maker’s details, the reason(s) for the decision and date of the decision must be recorded.

6.3 STANDARD CRIME ENQUIRIES

6.3.1 All other criminal investigations not listed above will be classed as ‘Standard Crime Enquiries’ and are therefore subject to a retention period of current year plus 6 years.

6.3.2 On conclusion of the case, or at any point during this period however, a standard crime enquiry may be reclassified as serious, thereby extending the retention to current year plus 12 years, where the case meets any of the following criteria:

- Does other information/ intelligence exist which suggests that the crime may be part of a sequence of escalating violent and/ or sexual offending behaviour?
- Does the case record indicate that the accused is likely to pose a continuing risk to either children or vulnerable adults?
- Did the case involve a custodial sentence in excess of six years?
- Did the case involve as yet unidentified forensic evidence?
- Does the case involve ongoing operational issues?
- Does the case involve significant witness protection issues?
- Did the case involve serious damage (£100,000 or more) to property?

6.3.3 In all of the above cases, the decision-maker’s details, the reason(s) for re-designation and date of the decision must be recorded.

6.4 RECORDS WITH HISTORICAL VALUE
6.4.1 Certain criminal investigations are of intrinsic historical interest to society, whether on a national or local scale. Once there are no longer operational policing reasons to retain investigative material, consideration may be given to retain these records as historical archives. Such further retention will however be the exception rather than the rule and the following aspects must be considered:

- Did the case have a significant impact on policing strategy?
- Did the case cause grave public concern or have a significant impact on the community/ society?
- Did the case involve substantial police resources?
- Did the case involve landmark developments in policing methods (eg new forensic techniques, case law)?
- Did the case attract or is it likely to attract significant media or external scrutiny?

6.5 RETENTION, REVIEW AND DISPOSAL OF PRODUCTIONS

6.5.1 Productions are items seized in the course of a criminal and/or deaths investigation into an incident which may give rise to criminal proceedings or a fatal accident inquiry, and which have evidential value in terms of the investigation and possible subsequent court proceedings.

6.5.2 The disposal of productions will be conducted as follows:

**Unresolved Serious Case productions** will be retained until the case is resolved. Notwithstanding this, where issues of health and safety, security or best value arise, permission should be sought from the Procurator Fiscal regarding earlier disposal. The same applies where the Senior Investigating Officer (SIO) determines that certain productions no longer require to be retained. In these cases, the decision-maker’s details, the reason(s) for the decision and date of the decision must be recorded.

**Unresolved Standard Case productions** will be retained for current year + 2 years from the date made known to the police except where the case has been identified for exceptional retention during a review. In such circumstances, the productions will be retained in line with the case records.

**Unresolved Minor Case productions** may be retained for a lesser period of 6 months from the date made known to the Police in the following circumstances:

- Cases where there are no injuries or minor injuries
- Cases where property damaged/ stolen is of low value
- Cases where there are no aggravations
- Cases where there is no available evidence/ intelligence to suggest that the crime is part of a sequence of offending behaviour

**All Resolved Case productions, both Serious & Standard and death related productions**, will be disposed of following notification from the Procurator Fiscal that criminal proceedings are concluded.

Retention of productions for longer periods can only be achieved through formal representation to or from the Procurator Fiscal and such retention will be reviewed annually unless the Procurator Fiscal has stipulated a longer retention period. In
such cases, the reason for further retention, together with details of the decision-maker and date of the decision should be recorded.

**Deterioration of Productions** - Productions should be stored in conditions which preserve their evidential value however, due to their very nature, some productions will deteriorate over time to the point where they have no evidential value - for example forensic evidence such as gel foot and fingerprint lifts and some DNA evidence. Any such productions may be destroyed. In such cases, the reason for the destruction, together with details of the decision-maker and date of the decision should be recorded.

**Valuable/ Sentimental Items** - None of the above prevents best practice of returning valuable or sentimental items to owners. If this course of action is taken the item may be photographed, replaced by a signed label, together with a supporting corroborative statement from the owner.

**Notebooks/ Personal Digital Assistants (PDA)** - Where a Police Notebook or equivalent PDA record has been lodged as a production it should be regarded as such until the conclusion of criminal proceedings at which time it will be retained in accordance with the general rules on notebook management.

**Scottish Criminal Cases Review Commission (SCCRC)** - Productions must not be destroyed in instances where notification to preserve them has been received from the SCCRC.
7. **FINANCE**

7.1 **APPLICABLE LEGISLATION**
- Prescription and Limitation (Scotland) Act 1973
- Prescription and Limitation (Scotland) Act 1984
- Value Added Tax Act 1994 Sections 14, 15, 48, 49(2A), 69(2), 69A and Schedules 11(6) and 11(6A)
- Finance Act 1985
- Finance Act 2012 Section 60(6)
- Companies Act 1985
- Companies Act 2006 Sections 248(2), 355, 358, 386, 387, 388, 389, 911(3), 926(3), 1083 and 1090(3)
- Taxes Management Act 1970 Section 12B and schedule 1A(2A)

7.2 **NOTE**
Unless otherwise stated, 'current year' for finance records shall be taken to mean the 'current financial year'

11. INTELLIGENCE

11.1 In the prevention and detection of crime, law enforcement agencies have a duty to seek out, record and disseminate intelligence material relating to offenders and those suspected of criminal activity. Although the DPA 2018 affords law enforcement agencies a degree of latitude with regard to openness in this pursuit, there remains an underlying need to have a legitimate basis for processing data and observe the data protection principles, particularly those regarding data quality and security in the handling of intelligence material.

11.2 While the requirement for information from intelligence sources to be subject to evaluation of reliability and worth prior to being recorded on an intelligence system is acknowledged, it is equally crucial that such material is retained only for so long as it remains relevant. The undue guarding of historical and extraneous information not only undermines data protection principles, but also diminishes the capability for officers to reflect on accurate and compelling intelligence.

11.3 Definitive procedures with regard to the retention and weeding of intelligence material are clearly established within the associated Manual of Standards, Code of Practice and the DPA 2018. Accordingly, the retention and weeding of intelligence material controlled by SID will be conducted in accordance with these provisions.

11.4 The DPAct 2018 requires that personal data should not be kept longer than is necessary for the purpose for which it was acquired. Accordingly, SID intelligence material will be subject to regular review and weeding as per the SID Rules, Conventions and Data Standards document. Intelligence material that is no longer of intelligence value should, except where paragraph 1.18 of that document applies, be destroyed.

11.5 Where it is believed that intelligence material, notwithstanding the requirement of paragraph 1.52 of the document, be retained on the grounds of Significant Public Interest*, the material; may be retained subject to:
- A record being made of the reason for the retention;
- Regular review of its continuing retention; and
- The imposition of additional safeguards concerning access.

11.6 A Significant Public Interest includes the maintenance of the security and integrity of law enforcement agencies or other public authorities.

11.7 While neither legislation nor any supporting Code of Practice / Manual of Standards is prescriptive in the timescales for the retention, review and weeding of intelligence material, it is clearly a requirement that such activities take place.

11.8 It will be the responsibility for LIO’s to apply and justify the appropriate timescales for the review, weeding and continued retention of intelligence material. While it may be appropriate to apply a generic interpretation of standards and requirements in most cases, LIO’s must always consider such actions on a case by case basis, particularly in regard to that intelligence which is significant in nature or which relates to core Nominals.
11.9 Where longer periods of review and weeding are selected, officers will be required to justify their actions in this regard.

11.10 Although a default weeding period of 12 months will apply in all cases, LIO’s are required to select an appropriate weeding date based on the aforementioned principles. It would be reasonable to assume that the selected weeding date would range from 1 year up to 10 years, dependent on legislative requirements such as Part V of the Police Act 1997, or the nature, evaluation, validity and threat posed by the intelligence itself.

11.11 The following matrix should be used as a principal reference point when considering and determining the review and weeding periods for any intelligence material held within SID:

<table>

13. MEDIA & COMMUNICATIONS

13.1 APPLICABLE LEGISLATION

Copyright, Designs and Patents Act 1988 (this covers both audio and visual material including video recordings, satellite broadcasts, posters, graphics and computer-generated material).

13.2 STANDARDS

- ISO 5466 Storage of Processed Safety Photographic Film
- BS-ISO 10356 Storage and Handling of Nitrate-based motion picture film
- BS-ISO 12606 Care and preservation of magnetic audio recordings for motion picture and television

13.3 NOTES

Unless otherwise stated, 'current year' for finance records shall be taken to mean the 'current financial year'

This matrix deals with two broad areas:

- Dealing with the media on the work of the police
- Special events, such as exhibitions, campaigns, etc.

Most media and communications records created by the media, press or public relations departments are commissioned by other police departments/sections, ie, Personnel requesting a job advertisement, Community Safety commissioning community information packs, etc., when this is the case, the appropriate commissioning department matrix should be referred to. Because of the unique nature of the records in this matrix, it is as important to consider the storage of the material (it being created and stored on a range of media), as it is to consider the appropriate legislation, hence the three BSI storage standards listed above.

16. PERSONNEL, TRAINING & RECRUITMENT

16.1 APPLICABLE LEGISLATION

There are a large number of Acts of Parliament, regulations, statutes and professional guidelines that determine and manage employment and employment terms and conditions of service. In general terms there is little within these documents that either stipulate or recommend how long records and information should be kept. However the spirit and purpose of these documents can be used to assist in determining retention periods. Therefore, where no specific, named source is given for a recommended retention within this document, it can be assumed that the retention is suggested on this basis.

All records relating to payments are dealt with under the Recommended Record Retention Periods for Finance.

Other useful sources include (not a comprehensive list):

- Data Protection Act 2018 (although it does not stipulate retention)
- European Convention on Human Rights
- Employment Rights Act 1996
- Police (Scotland) Acts (various)
- Police Scotland Regulations 2004 SSI 2004/257s15(3)
- Official Secrets Act 1989

While the records of training are similarly not generally included in legislation and statute, it is good practice to retain evidence of training to show that they are undertaking their obligations under the various acts. This includes for example, evidence of time spent on firearms practice, equal opportunities training received, etc.

| 1.3 | Activities associated with the *maintenance* of property | Last action + 10 years | Maintenance programme/ schedules, Forward maintenance registers (FMR), Maintenance diaries | Refer to ‘11 - Health & Safety’ for recommendations relating to property hazards, incidents and inspections |
| | Management of maintenance activities | Refer to ‘8 - Finance’ | | |
| | Maintenance contract records | Refer to ‘11 - Health & Safety’ | | |
| | Records of inspections of property, plant and equipment | Current Year + 6 | | |
| | Records documenting routine maintenance | When equipment disposed of, destroy or transfer to new owner | | |
| | Maintenance and operational manuals | | | |
## 20. PUBLIC PROTECTION

<table>
<thead>
<tr>
<th>Ref.</th>
<th>Function Description</th>
<th>Retention Action</th>
<th>Examples of Records</th>
<th>Notes</th>
</tr>
</thead>
</table>
| 1.0  | Records relating to the protection of children | Review when child reaches age of 18 based on:  
- information/ intelligence exists which suggests links to other child protection cases  
- information required for ongoing protection of other potential victims - for example abuse within the same family or linked by the same accused/ suspect  
- information/ intelligence exists which suggests that the child will go on to become an adult at risk & the information is required for their ongoing protection | Review when child reaches age of 18 based on:  
- information/ intelligence exists which suggests links to other child protection cases  
- information required for ongoing protection of other potential victims - for example abuse within the same family or linked by the same accused/ suspect  
- information/ intelligence exists which suggests that the child will go on to become an adult at risk & the information is required for their ongoing protection | Related Intelligence records will be held on SID and subject to its rule set as defined in ‘Intelligence’.  
Likewise, crime records will be retained on crime recording systems and are subject to the rules defined in ‘Crime’. | |
| 2.0  | Records relating to the protection of adults | Review every 12 years for continuing relevance | Review every 12 years for continuing relevance | Crime records may include those where the offender was the victim or complainer - subject to relevancy to their ongoing management.  
Records stored on systems such as ViSOR and SID have their own National Standards for retention and disposal and those records will be retained in line with such standards. ie ViSOR works on the “100 year” rule, whereby records are considered for disposal once the nominal has reached 100 years of age. Prior to the 100 year threshold, only when a Nominal record is created in error should it be deleted. | |
| 3.0  | Records relating to the management of Registered Sex Offenders (RSOs) | Lifetime of offender - Subject to periodic reviews for relevancy  
(either every 12 years or on expiration of notification requirements (up to 15 years) - whichever is longest) | Lifetime of offender - Subject to periodic reviews for relevancy  
(either every 12 years or on expiration of notification requirements (up to 15 years) - whichever is longest) | Crime Records & Management Records (ViSOR) relating to offenders who are either subject to notification requirements or are assessed by Offender Management Units as posing a similar risk. | |
| 4.0  | Records relating to membership of the Protection of Vulnerable Groups (PVG) scheme | Current Year + 5  
(from the date of the last activity associated with the record) | Current Year + 5  
(from the date of the last activity associated with the record) | Initial applications, Record of decision, Records relating to active monitoring process | |
| 5.0  | Applications under the Keeping Children Safe scheme | Current Year + 3 | Current Year + 3 | Applications, Record of decision | |

OFFICE SYSTEMS CENTRES (OSCS)

Each territorial division within Strathclyde Police maintains one or two OSCs in addition to those based in FHQ and at FTC. Several departments also maintain a smaller resource of between one and three members of staff providing a word processing service. In all divisions and in FHQ, the function of OSC is to provide a word processing service.

The bulk of the work of OSCs is made up of PF correspondence. Until the introduction of the Intranet Case Reporting System (ICRS), all correspondence with PFs, once finalised, was copied from OSC to the divisional electronic registry, maintained by Divisional Administration/Case Management. Although it is no longer added to, the Registry system is acknowledged in Force as the ‘master’ record and is the system to which officers should refer when requesting copy statements, etc. for court or reference purposes for the period pre-dating 2006.

The ICRS replaced Registry as the store for statements in 2006 and will also become the repository for other PF correspondence and related work. As a result, OSCs now input information directly to ICRS, copies are not held on OSC shared drives.

OSCs also process a wide range of general correspondence from senior management and specific departments or sections such as Divisional Licensing and OMU. Use of OSCs for this purpose varies throughout the Force, often as a result of time, computer availability, keyboard skills and personal preference.

Filing and Management
OSCs have never been provided with specific instruction on these matters are as a result, a range of practices exist. In general, OSCs create, maintain and store their work chronologically, using alpha numerical document footers, although work for specific staff such as the divisional commander may be retained in a separate confidential file. Each year FHQ ICT provide a new set of electronic files for OSCs to store and at the same time delete one year’s records in entirety from the live system, although back-up may continue to be held. This practice can vary and in some divisions, records are removed from the server when space becomes an issue.

Over time, OSCs have come to be regarded as an unofficial filing system, although this is not their function. Documents within OSCs can be found through the use of search options, however finding information relies on users knowing:

- That information/a document exists
- Who the author was
- When it was written

The method of filing and document management used by OSCs is contained within the Records Management SOP. This was rolled out throughout divisions during 2007-2008.

It is impossible to apply the retention schedule to the records held by OSC that pre-date 2007-2008, without first referring to each document individually, requiring substantial additional resources. Therefore, the following will apply:

- OSC Records created 1999 - 2004 inclusive
Records for 1999 (plus any predating 1999 and including those only on back-ups) - destroyed in January 2005. Thereafter all records will be destroyed after 6 years on an annual basis, up to and including the records for 2004.

IT will be formally instructed by Records Management to destroy all records using this formula.

- Records created in 2005 and thereafter - PF Correspondence

OSC is a service provider and will not retain records on behalf of the Force

All PF correspondence stored in the registry or ICRS will be retained in OSC for the current year in which it was created, plus one full year and deleted thereafter. Deletion will be carried out on an annual basis. It will be the responsibility of the OSC supervisor (or a delegated representative) to batch delete (or make provision for the deletion of the records by IT) created in 2005 on 1st January 2007 and so on.

Officers seeking copy statements, etc. will be redirected to the registry

All finished work from OSC will be sent with an e-mail message or a manual compliments slip to highlight that the finished document is stored in the electronic registry or ICRS and that all draft versions should be destroyed. It will also highlight that the document will only be stored at OSC for the current year + 1.

Records Management will undertake audits to ensure that master records are being retained appropriately prior to the first round of annual deletions. Should the evidence from this audit show significant disparity between the records created by OSC and those stored as master records, deletion will be postponed and procedures reviewed.

- Records created in 2007-2008 and thereafter - All other records

All PF-related correspondence will continue to be saved directly to ICRS or in the interim, within OSC before inclusion on the registry system. Therefore all OSC documents are working copies and can be destroyed after current year + 2.

All other records created by OSC will be saved to the divisional shared drives in line with the Records Management SOP. Therefore no copy records should exist within OSC files. All early versions of documents should be deleted when the final version is agreed by the author. It is the responsibility of owner departments and sections to properly apply the retention schedule to the files on the shared drives.

- Dictation Files and Equivalent E-mails and Correspondence

‘Winscribe system’ dictation files and related e-mails and correspondence to be destroyed no later than one month after completion of the work.

‘Winscribe system’ job logs (containing the job number, author, etc.) will be destroyed after one year.
AUDIT AND COMPLIANCE (STRATHCLYDE VARIANCES AND ADDITIONS)

Internal Audit is an assurance function that primarily provides an independent and objective opinion to the organisation on the control environment comprising risk management, control and governance by evaluating its effectiveness in achieving the organisation’s objectives. It objectively examines, evaluates and reports on the adequacy of the control environment as a contribution to the proper, economic, efficient and effective use of resources.

COMMUNITY SAFETY (STRATHCLYDE VARIANCES AND ADDITIONS)

It is important to highlight the potential historical value of records within this functional area as it demonstrates the diversity, development and new methods of proactive policing. For example, it is important to review and archive records that demonstrate how the Force provided services for asylum seekers, and how methods of promoting drugs awareness has changed over time.

The high level of partnership working in community safety means that several agencies and organisations are likely to hold the same information.

It is possible that the information retention policies in these organisations will vary from those of the former Strathclyde Police. In most cases, the Force will not retain the ‘archive’ copy of these records with the exception of Crime Prevention Panels for which we provide the secretary.

Community planning involves the application for funds from external agencies and funds usually with the assistance and involvement of partner organisations. Retention of many of the records created by such work is covered by the guidance issued for financial, personnel and contractual records.

CRIME RECORDS (STRATHCLYDE VARIANCES AND ADDITIONS)

The retention and destruction dates stipulated in this SOP are reliant on the Force’s ability to identify individually the type of crime to which each record relates and their final disposal. The Force cannot, at this time accurately weed cases individually due to a combination of system functionality and information structures within our manual systems.

The Force will aim to incorporate automated weeding and destruction into future systems and project managers and system developers must take this requirement into account. Until this is possible, the Force will manage crime records according to the instructions in this document. It is the responsibility of the Force system owner and their delegated responsible officers to ensure that ICT is provided with the authorisation to delete records from systems in line with the retention schedule.

Staff must take cognisance of the generic requirements for the administration, recording and timing of destruction of records and information stipulated in the introduction to this SOP.

Retention of Case Related Documents

The integrity of records and data gathered is fundamental to the investigation of crimes and offences.

All records created, gathered and held as part of an investigation are the property of the Force and should only be retained and stored within Force-authorised storage areas and computer systems.

Officers and Support Staff must not personally retain any case related documents (including copies, transcribed notes, etc.) outwith Force-authorised buildings or systems.

From time to time officers and in particular, probationary constables find it useful to maintain a portfolio of selected copy documents (particularly statements) as a training aid.

Personal portfolios for training purposes may be retained according to the rules below.

Each officer that retains a personal portfolio is responsible for its management. However the documents remain the property of the Force.

Portfolios must be retained and stored securely within police-authorised buildings and systems and in line with Force policies and SOPs.

Portfolios must be retained in a folder, structured appropriately and be made available for inspection if requested.

Portfolios may only contain copy documents. Unique case related documents, such as handwritten statements must be stored with other case related documents in the Divisional Registry or other appropriate Force file series.

Portfolios should contain the final version of documents.

Additional storage space will not be provided. The master documents are available from Force Registries and systems.

Copy documents in personal portfolios must not be retained longer than the master. Therefore copy case related documents for a standard crime must not be retained for longer than 6 years and for a serious crime must not be retained longer than 12 years.
All personal portfolios must be destroyed prior to officers leaving the Force. Officers and support staff may not retain any case related documents, records, notes or associated recorded information on any format after leaving the Force.

**Serious Crime Enquiries**

Problems exist in differentiating between serious and standard crimes in existing Force systems for weeding purposes. Weed dates for electronic records are defined below. Notwithstanding the destruction of these electronic records, manual (printed copies) from these systems pertaining to individual serious crime enquiries must be retained with the rest of the case related documents if electronic copies cannot be maintained for current year + 12 years.

At the closure of an incident room for a serious crime enquiry (resolved or undetected), the SIO must complete an End of Enquiry Checklist (Force Form 1:65:1) in conjunction with a situational report.

The End of Enquiry Checklist details all possible case related documents and should be marked to indicate what information exists, how it has been retained or if copies have been printed from electronic systems.

Where Force IT systems do not support the weeding or marking of individual case-related documents and information for a 12 year or indefinite retention, the SIO should ensure that copies are printed from the system, certified as a true copy and retained with the case related documents.

The End of Enquiry Checklist should be inserted into a separate file at the front of the first box associated with the case.

Standard Force Storage Boxes\(^2\) must be used for all cases after January 2006. The Crime Reference Number must be marked on the exterior of each box along with a sequential box number.

Each divisional CID and specialist squad is required to compile, update and retain permanently an electronic index of all serious crime enquiries that have been concluded in this fashion. This is the responsibility of the CID Clerk.

Certain criminal investigations are of intrinsic historical interest to society, on a national or local scale. Consideration may be given to retaining these case related documents as historical archives. This will be the exception rather than the rule. Where the officers noted in 2.8 consider that a crime enquiry has genuine historical value, further discussion is required with the Records Manager.

Preservation, care and access to case related documents for crime enquiries designated as having historical value requires consideration and the Force issues separate guidance on this matter. Where a resolved crime enquiry is considered as being of historical value, consideration should be given to requesting permission from the Crown Office to retain appropriate productions.

**Command and Control**

Crimes and incidents reported to the Force are logged on the Force Command and Control System. Records and information on Command and Control is retained for current year + 6 years.

**Police Notebooks**

---

\(^2\) Provided by Force off-site storage contractor for the purpose. Appropriate storage boxes must be used for undetected cases.
Retain for 6 full calendar years from closure of notebook. All notebooks lodged as productions are exempt until released by the PF SIOs may authorise retention of specific notebooks in line with the crime retention policy if there is an ongoing operational requirement.

**Notebooks Lodged as Productions**

If a notebook has been lodged as a production and has not been required immediately to be placed with the court, the notebook should be retained within the production store until the conclusion of the criminal proceedings. The Production Officer should then return the notebook to the Divisional Notebook keeper, who will then prepare and store in accordance with Force procedures.

**Storage, Management and Transfer of Notebooks**

Guidance on the storage, management and transfer of notebooks is contained within the Notebooks and PDAs SOP.

**Crime Management**

The Force Crime Management System is used to log a report in respect of every crime or offence made known to the police. Reports on crimes are updated during the police investigation and at the end of that process are marked as complete (no further action or resolved) or ongoing (investigation ongoing). The current configuration of the Crime Management System does not facilitate weeding cases individually according to the ACPOS Policy. Enabling functionality will be incorporated into future crime management systems.

Crime Management Records marked ongoing will be retained until the status changes and 5.5 applies thereafter.

Crime Management Records marked complete, either as a result of a detection or a decision to take no further action will be destroyed at the end of the current calendar year + 6 years.

**Warrants**

Instructions on the retention of information about the process of obtaining and serving apprehension, means enquiry and bail warrants, interdicts and ASBOS are available in the Warrants section of the Force Record Retention Schedule.

**Case Reporting**

Police reports are prepared for submission to the Procurator Fiscal or the Children’s Panel. Additional information relating to individual cases can also be requested from the Force and all such correspondence may be loosely defined as ‘PF Correspondence’.

Officers dictate reports to the Winscribe dictation system and receive a job number. Office Systems Centres (OSC) type the statement for the officer to approve. Following amendments, OSC notify Case Management who in turn forward the information to the PF. Case Management are also responsible for transferring a copy of the information to the Divisional Registry or ICRS.

The Force defines records held in Electronic Divisional or Departmental Registries and ICRS as the master set of records sent to PF/Children’s Panel.
The current configuration of Divisional Electronic Registry Systems and ICRS does not facilitate weeding cases individually according to the ACPOS Policy.

Enabling functionality will be incorporated into future crime management systems.

All records on Electronic Divisional or Departmental Registries and ICRS will be destroyed at the end of the current year + 6 years.

Where a case is defined by the ACPOS Policy as a ‘serious crime’, the SIO should obtain a printed or electronic copy of PF Correspondence from the registry and store it with the case papers, either manually or electronically. This should be noted on the End of Enquiry Checklist.

Retention and management of records held by OSCs is defined in the Administration section of the Force Record Retention Schedule. OSC records are defined as copies and will generally be destroyed two years after creation.

**Prisoner Processing**

Information about every individual held in police custody is entered on a divisional prisoner processing system. The Prisoner Processing system is not networked throughout the Force and transfer of information between systems is a manual process.

The current configuration of the Prisoner Processing Systems does not facilitate weeding cases individually according to the ACPOS Policy.

All records on Prisoner Processing Systems will be destroyed at the end of the current year + 6 years

Signed Prisoner Property Receipts must be retained for current year + 6 years.

Where a record is defined by the ACPOS Policy as a ‘serious crime’, the SIO should obtain a printed or electronic copy of the Prisoner Processing entry from the divisional system and store it with the case papers, either manually or electronically. This should be noted on the End of Enquiry Checklist.

The Prisoner Processing system is due to be replaced by the SPIS Custody Management system during 2005/6.

Custody Management will provide SIOs with a marker to denote ‘serious’ cases in terms of the ACPOS Policy. Cases thus marked will not be destroyed after current year + 6 years and must be reviewed annually thereafter.

**HOLMES**

The Home Office Large Major Enquiry System (HOLMES) is only used investigations defined by the ACPOS Policy as a ‘serious crime’

Records of cases on the HOLMES system will be retained in line with the ACPOS Policy for the Retention of Crime and Productions.

Undetected cases will be retained indefinitely

Detected cases for the current year + 12 years from the date made known to the Police.

Where detection occurs more than a year after being made known to the Police, the retention period will be taken from the date the case is reported to the PF.

Destruction of these records will be authorised in combination with other case materials as outlined in the process defined in section 2 above

**Offender Assessment Units**
Offender Assessment Units (OAUs) carry out assessments when custodial sentences are complete. In certain cases this may be some years after the proposed destruction of case related documents.

In such cases, OAUs may retain any case related documents relating to a case to facilitate an assessment and ongoing monitoring beyond the stipulated retention. This entitlement is included in the ACPOS Policy.

It is the responsibility of the OIC at each OAU to make arrangements for the extended retention of any case related documents required after the 6/12-year destruction dates.

To ensure that OAUs are aware of case related documents due for destruction, the Detective Chief Superintendent, HCID (Intelligence) is part of the destruction authorisation process for serious crime enquiries.

Any records retained by OAU or on their behalf must be destroyed when the operational requirement for the records is complete.

It is the responsibility of the OIC at each OAU to maintain a list of case records retained by the Unit or on their behalf.

The decision to retain case records for more that 12 years must be reviewed annually by the OIC, OAU and the review date and reasoning recorded.

**Vulnerable Persons Database**

Records of incidents will be retained for the last contact + 6 years.

Where contact has been made on several separate occasions or over a period of time, the first instance may be retained along with the latest instances relating to an individual. Therefore, retention of records relating to an individual is dependant on the date of last contact.

**SCCRC**

Records must not be destroyed in instances where notification to preserve records has been received from the SCCRC. In all cases written notification will be made from Complaints and Discipline Branch, FHQ to HCID (Operations) or the Divisional Commander depending on the calibre of the case under review by the Commission.

Where notification of discharge has been received by the SCCRC, indicating that the Commission has no further interest in the application, the Force will revert to the proposed destruction date.

SCCRC Records and correspondence held by Complaints and Discipline are retained for current year + 6 years following receipt of a ‘No Action’ notification from the Commission. These files may contain copies of case-related documents.

**Forensic Records**

Strathclyde Police Forensic Support Department maintains a Quality Manual (SPFSDQM), which defines the practical processes for implementing and managing the retention and destruction of records.

Destruction of records will be authorised in combination with other case materials as outlined in the process defined in section 2 above.

**Photographs, Images, Video**
Scenes of crime and related images, video, etc. are regarded as productions for the purposes of the ACPOS Policy. Please refer to the Productions Manual for further guidance.

Retain the SIO’s copy of investigation photographs with other case papers.

Crime scene negatives and digital images may be retained for training and historical purposes.

Prisoner images attached to the Criminal History Record are retained indefinitely.

ID Parade and VIPER data should be retained as case related documents after the release of productions.

**Missing Persons**

In instances where a missing person report (traced or untraced) develops into a criminal investigation, information related to the missing persons report is to be treated as a case related document and managed accordingly.

**Records of Surveillance**

At the conclusion of every crime enquiry (whether Serious or Standard) involving Directed or Intrusive Surveillance, the Investigating Officer must gather and review all surveillance records made during the operation.

Surveillance records can include surveillance logbooks, visual images recorded or stored on any format, and any product of Intrusive Surveillance.

The Investigating Officer will categorise each record as either a ‘Crime Record’, an ‘Intelligence Record’, or a ‘Record of No Value’.

Surveillance records categorised as ‘Crime Records’ will be retained, reviewed and weeded in accordance with the ‘Crime’ section of this SOP.

Surveillance records categorised as ‘Intelligence Records’ will be retained, reviewed and weeded in accordance with the ‘Intelligence’ section in this SOP.

Surveillance records categorised as ‘Record of No Value’ shall not be retained any longer than is necessary and should be destroyed as required by the DPA 2018.

The appropriate Control Sheet for the record, for example the Surveillance Logbook Control Sheet (force form 3:15:21), will be endorsed by the Investigating Officer to show the categorisation of each record and the Review date.

The appropriate Control Sheet for the record, for example the Surveillance Logbook Control Sheet (force form 3:15:21), will be also be endorsed to show subsequent reviews and details of when and by whom the record is destroyed.

**Historical Value**

Certain crime enquiries are of intrinsic historical interest either nationally or locally. This may be as a result of a new or innovative technique used during an enquiry, or that the enquiry set a judicial precedent or became a stated case. In addition there are enquiries that are ‘famous’ or ‘infamous’.

Consideration should be given to retaining records of these enquiries as historical archives. Retention for historical non-operational purposes will be the exception rather than the rule.
It is recognised that in retaining only extraordinary cases, an unbalanced picture of enquiries may be presented and from time to time a routine enquiry may also be retained as an example of investigative work and procedures.

The National Archives of Scotland (NAS) retains all records presented during High Court cases and summary details of all Sheriff Court cases. District Court records are the responsibility COPFS. Therefore records are available from another source, albeit not necessarily all of the records that the Force may hold.

Where the officers noted in 2.8 consider that a case has genuine historical value, lists of these records shall be forwarded to Records Management for further discussion.

Records of enquiries with historical value will be held centrally by the Force to ensure that they are properly preserved and accessible.

**Livescan**

From July 2006, Livescan messages are e-mailed to the Force. Once a message has been opened, read and actioned, it should be retained for the month it was received, plus an additional three months within the folder.

If any messages are identified as being required for more than this period (for example for court purposes if a false name has been provided), these should be flagged and deletion stopped.

**Financial Information Management System (FIMS)**

Daily Log files for this system will be retained for the current year + 2. This does not apply to daily log files for the productions module which will be retained with the records that they refer to.

EXECUTIVE MANAGEMENT (STRATHCLYDE VARIANCES AND ADDITIONS)

In this section of the retention schedule, where review dates are provided for correspondence files, they apply to the following members of the Force only:

Chief Constable
Depute Chief Constable
Assistant Chief Constables
Director of Finance & Physical Resources
Director of Human Resources
Director of Legal Services
Divisional Commanders
Departmental Chief Superintendents

All other correspondence files should follow the procedures elsewhere in this document.

PERSONNEL AND RECRUITMENT (STRATHCLYDE VARIANCES AND ADDITIONS)

Personnel files (police and special constables) are archive records. The core documents and information noted below are never destroyed and form the historical record of force officers along with records such as the leavers’ register. The format and style of these documents and records are subject to alteration over time. Some weeding is required throughout the life of the file (paper and electronic copies). To simplify the system and negate the requirement to weed every file annually, the weeding codes shall be reduced to:

**Archive** - Document never removed from file or information deleted from dataset (duplicate copies may be destroyed when divisional/departmental and FHQ personnel files are amalgamated on retirement/resignation). Personnel files containing archive documents are deposited with Glasgow City Archives approximately 15 years after termination of service.

**Duration of Service + 6 years** - No document that is not an archive record will be kept longer than 6 years from termination of service, determined by the formula: *End of year during which termination of service occurred + 6 calendar years*. Duplicate copies of documents with this retention may be destroyed when the files are amalgamated. This must include copies on all formats.

**Current year + x years** - All copies of document to be destroyed from personnel files and deleted from computers determined by the formula: *Current year + 6 calendar years*. All copies of these documents must be destroyed at the stipulated time; this includes copies held locally and by FHQ, irrespective of format or store. The master document must be retained for this length of time; duplicates may be destroyed earlier.

Note: If an officer leaves the force with legal action notified or pending, all weeding (with the exception of exact duplicate documents - annotated copy documents must not be destroyed) is to be suspended until the outcome of the action is known.

After the final weeding carried out at termination of service + 6 years, each personnel file should contain the following as an archive source for permanent retention:

---

<table>

</tr>
</tbody>
</table>

---
- Application Form
- CC/Other Agencies Commendations & Testimonials
- Certificate of Service
- Disciplinary Dismissal Letters
- Extract of Birth Certificate
- Pension Records
- Photograph(s)

- Qualifications
- Record of Training Undertaken
- Report of Incident/Injury/Disease
- Resignation/Retirement Transfer to other Force Notification
- Termination of Service Report
- Transfer Sheet

Personnel Files - Special Constables
As per the arrangements for police personnel files

Personnel Files - Police Cadets
The employment status of police cadets falls between police and police staff. For ease of use, the notes column specifies whether the information falls under the status of police, police staff or cadet.

Personnel Files - Police Staff
Core information from personnel files/database (police staff) is retained permanently within the Force. Unlike the police equivalent, it is not passed to the Archives for management. This is a change from past procedure where all information regarding the employment of police staff was ultimately destroyed with the exception of that contained in the leavers’ register.

The format and style of these documents and records are subject to alteration through time and may take the form of a database entry. Some weeding is required throughout the life of the file (paper and electronic copies). To simplify the system and negate the requirement to weed every file annually, the weeding codes shall be reduced to:

**Archive** - Document never removed from file (duplicate copies may be destroyed when divisional/departmental and FHQ personnel files are amalgamated on retirement/resignation). Police Staff personnel files containing archive documents are maintained within the Force.

**Duration of Employment + 6 years** - No document that is not an archive record will be kept longer than 6 years from termination of employment, determined by the formula: *End of year during which termination of employment occurred + 6 calendar years*

Duplicate copies of documents with this retention may be destroyed when the files are amalgamated. This must include copies on all formats.

There are special arrangements for staff who have been employed by the force on more than one occasion under separate contracts.
Where a member of staff has left the force and reapplied for another post at a later date before the proposed destruction of the documents pertaining to their previous employment, the documents within the original file shall be merged with the documents in the new file. Thereafter the destruction date termination of employment shall relate to the new end date, rather than the date on which they previously left the force.

**Current year + x years** - All copies of document to be destroyed from personnel files and deleted from computers determined by the formula: *Current year + 6 calendar years*. All copies of these documents must be destroyed at the stipulated time; this includes copies held locally and by FHQ, irrespective of format or store. The master document must be retained for this length of time; duplicates may be destroyed earlier.

Note: If an officer leaves the force with legal action notified or pending, all weeding (with the exception of exact duplicate documents - annotated copy documents must not be destroyed) is to be suspended until the outcome of the action is known.

After the final weeding carried out at termination of service + 6 years, each personnel file should contain the following as an archive source for permanent retention:

- Application Form
- Offer of Employment Acceptance
- CC/Other Agencies Commendations & Testimonials
- Certificate of Employment
- Disciplinary Dismissal Records
- Exit Reference Report
- Pension Records
- Photograph(s)
- PWA Print Out
- Qualifications
- Report of Incident/Injury/Disease
- Resignation Report
- Termination of Employment Report

**SCOPE System**

The Strathclyde Police Human Resources database, known as ‘SCOPE’, was implemented in Force during 2003/2004. SCOPE (and its successors) has and will continue to take over processes and recording of relevant information formerly carried out using either manual forms for inclusion in Personnel files, or a combination of forms and legacy databases. Where SCOPE takes over a function or process, the retention dates remain the same for the electronic information; this includes processes or parts of processes outwith the Personnel function, such as Finance and Complaints & Discipline.
What to Put in a Personnel File

This section gives advice on how to manage records in Personnel files, however it is useful to highlight the types of information that should not be placed in Personnel files.

- No document should be placed in a Personnel file that is not acceptable for the employee to see
- No document should be placed in a Personnel file that contains inappropriate remarks or ill-chosen language that may be considered derogatory or that cannot be supported by evidence
- Information on crimes and incidents and case notes
- Third party information not related to the subject of the Personnel file
- Grievances made by the employee
- Unattributed comments and annotations to documents

TRAINING (STRATHCLYDE VARIANCES AND ADDITIONS)

Courses Provided by FTRC
FTRC has responsibility for maintaining basic details of courses offered, their aims and objectives. This includes changes and development of content. The force does not permanently retain details of course content such as transcripts of lectures and presentations.

For each course the following are to be retained permanently:
- Aims and Objectives
- Course outline
- Details of any handouts, reading lists or associated course materials
- Selected photos taken at courses can be retained for PR purposes

Development of Training Inputs
FTRC also maintains on behalf of the force the corporate aims, strategy and development of training, included superseded records. Some of this information may also be found in Joint Board, Policy Group and Personnel Strategy papers. Details, working papers and ephemera will be weeded from these records.

FTRC maintains course and training evaluation data for operational purposes. While core information may be used in development plans and strategy documents these records are destroyed regularly (see below for details). Business plans and training needs analysis are treated similarly. FTRC may occasionally select some of these records for permanent retention based on the force review guidelines. Where this is the case, alterations to specific retention periods will be registered.

Record of Training - Individuals
Completion certificates and records of attendance are inserted in personnel files each time training is completed. In addition this information is retained on the HR database. Records are not retained elsewhere. The training record of each member of staff should be apparent from their file.

Firearms Training - An exception to the records of course attendance being retained solely in personnel files is the record of firearms range practice, which is retained by FTRC.

WARRANTS (STRATHCLYDE VARIANCES AND ADDITIONS)

The instructions below refer primarily to reports printed from the warrants system. The management and destruction of data on the warrants system will be carried out at FHQ following the criteria set out in the retention schedule. Inclusion in the retention schedule below does not automatically require reports to be printed as many can be recreated at any given time. It is for this reason that the printing and retention of unnecessary reports is discouraged and also why the length of retention is short. The master record is accepted to be the data on the system with the exception of specific forms from which the system is updated or that act as receipts for monetary transactions.

The introduction of the warrants database in 2001/2 led to a number of force forms becoming obsolete in the manual format. Retention guidance is provided for these forms, as those completed before the introduction of the new system must be retained for the stipulated period. For this reason they are separated from the processes that they were formerly part of.

GLOSSARY OF TERMS

Reference Number
The reference number provides a citation for ease of reference

Function Description
Defines each function in terms of its activities and processes (may also include some record types)

Retention Action
This entry stipulates how long information should be kept and at what point it should be destroyed or reviewed

Examples of Records
Lists different types of common records that may result from the function described. It is not an exhaustive list and is intended purely as a sample

Notes
Any relevant information, including the reason for setting the retention period

Archive
Retain permanently. Information will never be destroyed and will be kept as a permanent record of the work of the force.

Destroy
Destroy/ delete/ purge information on all formats. Usually given in the form of “Current year + x”

Review
Using review criteria provided, assess whether record should be retained for a further period or destroyed

Current year + x
Destroy after the full year that document dated or closed + x full years e.g. document dated 01/09/2012 marked ‘Current year + 6’ would be destroyed on 01/01/2019. Unless otherwise stated, ‘current year’ refers to the current calendar year.

Closure
A record/ file is closed when it ceases to be active or at the end of a year, depending on the subject. After closure no new records or information should be added to the record. Triggers for closing a file include: reaching an unmanageable size; covering a period of x years; no records added for x period of time; no action taken for x period of time; completion of an event or incident.
APPENDIX ‘M’

RETENTION OF INFORMATION HELD ON SCOTTISH CRIMINAL HISTORY SYSTEM (CHS)

Disposals which are convictions (findings of guilt) or alternatives to prosecution not referred to specifically below (including admonishment and absolute discharge) will be retained as follows:

- For the **life of the offender** (until the subject has attained 100 years of age) where any of the following criteria apply:
  - a sentence of life imprisonment has been imposed
  - subject is detained during Her Majesty’s pleasure or without limit of time
  - the offence is a sexual or sexually aggravated offence, or

- In accordance with the **70/30 rule** (until the subject has attained 70 years of age and the conviction is 30 years old) where any of the following criteria apply:
  - the conviction is on indictment (solemn procedure)
  - the disposal is a ruling under the Mental Health Acts
  - a custodial sentence has been imposed, or

- In accordance with the **40/20 rule** (until the subject has attained 40 years of age and the conviction is 20 years old)

The following records which relate to other offending and non-conviction disposals will be retained for 2 years:

- Warnings to Prostitutes (except where a second warning has been recorded in the same period - in which case the 40/20 rule applies)
- Police and Senior Police Officer’s warnings
- Police fixed penalty notices
- Fiscal warnings
- Fiscal disposals (fines, compensation orders, combined orders and work orders) for non-sexual and non-violent offences
- Children’s Hearing disposals (grounds accepted and grounds established) for non-sexual and non-violent offences

The following disposals will be retained for 3 years:

- Fiscal disposals (fines, compensation orders, combined orders and work orders) for sexual and violent offences
- Non findings of guilt, cases not called at Court, cases deserted and Fiscal decisions of no further proceedings for sexual and violent offences
- Children’s Hearing disposals (grounds accepted and grounds established) for sexual and violent offences* - at which point they will be reviewed, as per the requirement to review the associated fingerprint and DNA retention.

(Retention may be extended by up to two years where a Sheriff has ruled to extend the retention of the associated forensic samples. Further extensions may be applied for at the end of each extension period.)

* Offences prescribed by legislation in Criminal Justice and Licensing (Scotland) Act 2010 Sections 77 to 82 which amends sections 18 and 19 of the Criminal Justice and Licensing Act 1995 (as amended 2007).
** Offences prescribed by legislation in “Children’s Hearings act 2012 and amendments to ROA”

Records marked as temporary retention - ie non findings of guilt such as no proceedings, no further proceedings, grounds not established etc - will be retained for 6 months except where case is sexual or violent (see above).

Historical records of bail granted and bail conditions will be retained for 6 months from the end of the bail order.
