The Code of Practice on the Exercise by Constables of Powers of Stop and Search of the Person in Scotland

The Code came into effect on 11 May 2017. The Code governs all situations in which constables stop and search a person without first making an arrest, unless the search is expressly excluded, either under the Code, by statute, or by virtue of the search being subject to a separate statutory Code or guidance as to its exercise. The Code also sets out the requirements to be followed by the Police for recording information in relation to all stop and search activity covered by the Code.

The Code requires as soon as practicable after the end of each reporting year (ending 31 March), the Chief Constable of a relevant police service must publish, information on how many times during the reporting year a stop and search was carried out in Scotland by constables of that service. In addition, so far as practicable, the information is to disclose:

- (a) the number of stops and searches carried out under each statutory power;
- (b) how many persons were searched on two or more occasions
- (c) the age and gender, and the ethnic and national origin, of the persons searched
- (d) the proportion of searches that resulted in:
- (i) something being recovered by a constable, including information as to the number of cases in which the item recovered was of the type suspected by the constable at the outset of the search
- (ii) a case being reported to the Procurator Fiscal
- (e) the number of authorisations issued under section 60 of the Criminal Justice and Public Order Act 1994
- (f) the number of complaints made to a relevant police service about the carrying out of searches (or the manner in which they were carried out) in Scotland by constables of that service.
- (g) the number of receipts issued

The National Stop and Search Database was upgraded to coincide with the introduction of the Code. These changes included:

- (a) Cessation of the recording of consensual search
- (b) A new category to include searches of a person carried out in accordance with a search warrant issued by a court in Scotland
- (c) Addition of a new power under Section 66 of the Criminal Justice (Scotland) Act 2016, removal of a person
- (d) A new search type 'Protection of Life' recorded for when an officer conducts a search (in accordance with section 3.4 of the Code), under the overarching principles of Section 20 or 32 of the Police and Fire Reform (Scotland) Act 2012, as part of taking all steps necessary to protect life
- (e) A new search type 'Other' recorded for when an officer believes it is necessary to conduct a search that is not for the protection of life and where no specific statutory power exists and considers their actions to be justified, the officer should enter Police and Fire Reform (Scotland) Act as the 'Power of Search used'
- (f) Officer's estimate of the age group of the person searched (under the age of 18 or 18 years of age and over) if not provided

The Code is available at police stations and on the stop and search page of the Police Scotland website (www.scotland.police.uk).

Commentary Notes on Management Information

Force Level Highlights

- 1. All statistics are provisional and should be treated as management information. All data have been extracted from Police Scotland internal systems and are correct as of 2nd April 2022.
- 2. This report shows the data of the enhanced database 1st April 2021 31st March 2022.
- 3. This data shows that Police Scotland is delivering the improvements set out in the Stop and Search Improvement Plan and is committed to sustaining and building on those improvements and maintaining community confidence.
- 4. An enhanced database was rolled out across Scotland on 1st June 2015 which included additional validations designed to improve the quality of the data by preventing inaccurate data capture through input error. Further enhancements have followed, significantly allowing more detail to be recorded since the introduction of the Code of Practice. Following the review of the data captured on the National Stop and Search Database for the period specified, it is evident that the introduction of these validation checks has made a significant impact on the level of data input errors.
- 5. In relation to outcomes the National Stop Search Unit (NSSU) do not validate or compare search outcomes from the National Stop Search Database with other Police systems.

Ongoing Quality Assurance

As part of Police Scotland's duty under data protection and our quality assurance process, records held on the database may be reviewed and may be subject to amendment. This involves liaising with the officer(s) involved to confirm any aspect of the recorded data which is unclear. Any adjustment in respect of these records will be reflected in future stop and search publications.

Complaints

The process for identifying all stop and search-related complaints was under review and prevented publication of accurate reporting throughout the last two quarterly reporting periods. The review has since concluded and found an anomaly in how the complaints were being categorised, however, all stop and search-related complaints have been managed through Police Scotland's complaints process.

Data for the current reporting period has been revised using the new identification process and a total of 121 complaints relating to stop and search were received during 2021/22.

Persons Searched on Two or More Occasions

Between 1st April 2021 - 31st March 2022, 3727 persons have been searched on two or more occasions. As the National Stop and Search Database is not nominal-centric this figure can be affected by a number of variables such as persons providing alias names or variations in spellings.

Comparisons with Historical Data

Due to changes in data recording to bring the National Stop and Search Database in line with the Code of Practice, direct comparisons with historical data would provide invalid or misleading conclusions.

Definition of a Stop and Search

Stop and Search

A stop and search is one conducted by a police officer in the course of their duties where a person who is not in police custody is searched using a specific statutory provision or in accordance with a search warrant issued by a court in Scotland.

Positive Stop and Search

A positive stop and search is when an item is recovered where possession of same implies criminality on the part of the person being searched or any other or where an item has been recovered which is potentially harmful.

N.B. When a stop and search under a statutory provision has taken place and alcohol, tobacco or NPS is recovered, depending on the circumstances this should be recorded as a positive stop and search on the Stop and Search Database.

Recordable Stop and Search (must be recorded on the National Stop and Search Database)

A recordable stop and search is any stop and search, with the exception of condition of entry searches (Section 67 Criminal Justice (Scotland) Act 2016) or Schedule 7 of the Terrorism Act 2000 (which is governed by different Codes of Practice).

^{1 -} The search type 'Other' refers to when an officer believes it is necessary to conduct a search that is not for the protection of life and where no specific statutory power exists and considers their actions to be justified.

^{2 -} Positive rates for searches under the Terrorism Act 2000 are not published for operational and security reasons. Statistical information about the operation of police powers under the Terrorism Act 2000 is available at https://www.gov.uk/government/collections/operation-of-police-powers-under-the-terrorism-act-2000.

- 3 Any anomilies in percentage changes are due to rounding up to the nearest decimal place.
- 4 Some searches are recorded with more than one disposal so totals will not equal the actual number of stop and searches.
- 5 A search can have more than one disposal from the list and provides the outcome and/or further action taken by officers.
- 6 The NSSU do not currently validate disposals on the National Stop and Search Database against other recording systems. This information is captured for internal management purposes only.
- 7 SPR2 is a new category of disposal introduced on the 11 May 2017 to meet reporting requirements of the Code of Practice.
