## Introduction

### Overview

The Scottish Police Authority and Police Scotland is pleased to be able to present the Annual Procurement Report for the Financial Year 2018-2019.

It is our aim to achieve value for money for the taxpayer through all procurement activity within Police Scotland and the Scottish Police Authority, to enable and support the organisation in improving safety and wellbeing of people, places and communities throughout Scotland.

This aim is embodied in the Police Scotland Procurement Strategy 2017 - 2020. Much has been achieved since the procurement strategy was put in place, notably in building capability through training and development, in recruiting staff from a range of commercial backgrounds, public and private sector, and a more strategic approach to procurement across Police Scotland

Despite the successes of 2018-2019, much is still to be achieved. The progress that has been made provides a solid base for future development further contribution to achieving Police Scotland's vision of sustained excellence in service and protection, as outlined in 'Policing 2026', which is available at:

<http://www.scotland.police.uk/assets/pdf/138327/386688/policing-2026-strategy.pdf>

### Background to the Scottish Police Authority and Police Scotland

The Scottish Police Authority and Police Scotland came into being on 1 April 2013, constituted under the Police and Fire Reform (Scotland) Act 2012, which had the strategic aims of:

- Protecting and Improving local services, despite financial cuts
- Creating more equal access to specialist support and national capacity
- Strengthening the communication between services and communities.

From a police perspective, this meant merging eight separate police services and two central bodies into a single entity, Police Scotland.

The Scottish Police Authority (SPA) has statutory functions that include maintaining the Police Service, holding the Chief Constable to account and providing Forensic Science Services. This includes entering into contracts in order to carry out its statutory functions. Although the Scottish Police Authority is the Contracting Authority for all Police Scotland procurement, the SPA delegates the operation of a procurement function to put in place such contracts to Police Scotland.

Police Scotland is now the second largest police service in the UK with over 17,000 police officers and over 5,000 staff members. The service provides all policing functions nationally and is structured around 13 local policing divisions supported by national divisions and departments including Specialist Crime Division, Operational Support, Custody, Criminal Justice and Corporate Support Services. The Procurement Service sits within Corporate Support Services under the Finance function of Police Scotland.

The Scottish Police Authority is the Contracting Authority for all Police Scotland procurement.

## Procurement Service in Police Scotland

The centralised Procurement Service is responsible for ensuring all regulated procurement within relevant non-staff expenditure of c. £170.7m is carried out in accordance with regulatory requirements and internal policy. This includes goods, services and works procurements across three category teams:

- Corporate & Estates
- ICT, Forensics & SCD
- Operations & Fleet

## 1. Summary of Regulated Procurements Completed

Police Scotland has provided a summary below of the contracts that were awarded between 1 April 2018 and 31 March 2019 following a regulated procurement. A regulated procurement is any procurement for public supplies or services with value of over £50,000 and for public works with a value of over £2 million – where an award notice has been published or where the procurement process otherwise comes to an end. This includes contracts and framework agreements. The high-level summary of regulated contracts is provided in the table below:

Contract Type	Number of New Contracts Awarded	Total Estimated Value of New Contracts Awarded (£m)
Supply	25	59.7
Services	105	121
Works	0*	0*
Mixed	1	0.09
<b>Total</b>	<b>131</b>	<b>180.8</b>

\*note that The Majority of Police Scotland's works requirements are carried out through a longer term strategic contract which was awarded before the reporting period.

A list of the contracts summarised above is provided in Appendix 1

---

## 2. Review of Compliance With Procurement Strategy

### 2.1 Introduction

The Police Scotland Procurement Strategy was recently reviewed for the period 2017 to 2020. The strategic priorities for procurement, established in line with the corporate strategy developed for the single police service, are as below:

- Contribution to Carrying Out Functions and Achieving Purposes
- Delivery of Value For Money
- Compliance with General Duties
- Action Areas

The Police Scotland Procurement Strategy is available on the Police Scotland website by following the link below:

<https://www.scotland.police.uk/assets/pdf/138327/327595/procurement-strategy-2017-2020>

### 2.2 Compliance Assessment

Compliance with the Procurement Strategy has been assessed in relation to the strategic objectives outlined above.

Further, the strategy identifies the role responsibilities of the procurement function in delivering the strategy across 10 areas. A summary of those responsibilities and a review of activity relating to those areas is provided below:

Responsibility Area	Activity Summary
Ensure that value for money is achieved through appropriate procurement strategies and procedures and input into programme business cases.	<p>Sourcing strategies are required for all procurement activity with a value in excess of £5,000 Excluding VAT.</p> <p>Procurement are consulted within the business case development process and the Head of Procurement is a member of the Change Board which assesses transformation projects.</p> <p>Procurement are members of multiple specific stakeholder forums and working groups which consider the organisation's requirements in major spend areas such as uniform and PPE, Fleet, Estates and ICT.</p>
Advise, guide and support the development of and compliance with procurement policy, best practice and legislation.	<p>The Head of Procurement is responsible for developing policy in line with legislation and ensuring compliance through the organisation.</p> <p>The procurement team regularly monitor spending to ensure compliance with relevant legislation and</p>

	<p>procedures, and that any remedial action required is taken if non-compliant spend is detected.</p> <p>The Head of Procurement, Category Managers and the wider procurement team regularly engage with stakeholders throughout the business on a range of forums.</p>
Provide professional, qualified procurement expertise, advice and services.	<p>The procurement function has been centralised and a category management approach adopted.</p> <p>Assessment of competency against the Scottish Procurement Competency Framework is undertaken on a periodic basis and capability assessed to determine training needs.</p> <p>Training is provided on emerging and novel topics such as sustainability, anti-corruption, data privacy etc. and staff are encouraged to take advantage of any wider sector training opportunities provided by the Scottish Government or other Scottish Public Sector Partners as well as other UK police forces.</p>
Ensure that business needs are met through its procurement of goods, services and works.	<p>The procurement strategy template is designed to ensure a thorough analysis of requirements and the potential supply market to ensure that business needs are met in way that delivers best value in compliance with relevant legislation and internal policies and procedures.</p> <p>Key contracts are managed to ensure the service delivery meets expectations. Business leads are sought for tier one contracts, a contract management framework is in place and this is being reviewed to improve its effectiveness on an ongoing basis</p>
Contribute to the aims and objectives of the organisation, as detailed in the corporate plan.	<p>The procurement strategy document focuses on how each procurement contributes to the overall strategic aims of the organisation.</p> <p>In addition, award recommendation board reports record how each decision meets the overall goals of the organisation.</p>
Pro-actively manage and develop the supplier base, including small and medium-sized enterprises (SMEs) and voluntary, community and social enterprise (VCSE) sector organisations, identifying and managing any supply risks or value add opportunities.	<p>The procurement strategy documents contains considerations relating to the supply base. This identifies procurements which have the potential to develop the supply base including opportunities for SMEs to participate, or to act as subcontractors. Police Scotland use a range of tools including PIN notices and RFIs to inform the market of potential opportunities and gauge the potential of SME and VCSE sectors supporting a contract. In addition, Police Scotland engage the Supplier Development Programme where there may be a</p>

	requirement to support SME of VCSE bidders through a tendering process.
Co-ordinate training development and registering of procurement officers.	Training is coordinated through an individual in the team. Training in 18-19 was primarily delivered through Police Scotland's Commercial Excellence programme which focused on key themes identified through a summary analysis of the Scottish Procurement Competency Framework assessments.
Assess procurement competencies across the organisation, using tools such as the Scottish Procurement Competency Framework.	The procurement competency assessment is in the process of being refreshed and the intention is to develop more tailored training in specific areas of capability that will focus on individual skills.
Promote and engage in collaboration and information sharing with relevant partner organisations.	Police Scotland regularly engage in Scottish Government national and sector led collaborative procurement opportunities, such as power supply, vehicle rental, natural gas.  Police Scotland also attend forums and share information with other central government partners as across sectors with other sectoral procurement centres of expertise.
Support sustainable policies through procurement processes.	Sustainable procurement is embedded within the sourcing strategy template document. This includes environmental sustainability, economic sustainability and fair working practices.  The Procurement team work closely with others in the organisation in relation to initiatives which have environmental benefits including reducing power usage, reducing waste, fuel efficiency and reducing unnecessary travel.  The procurement team use relevant tools provided by the Scottish Government to assess the impact of contracts including the Sustainability Test.  The procurement team have undertaken a flexible framework assessment and have an action plan in place to improve performance in this area.

## 2.3 Improvement Activity

The Police Scotland Procurement Service are continually working to ensure compliance with the Procurement Strategy across the organisation. A Procurement Improvement Programme is in place to deliver improvements to the procurement process and capability within Police Scotland and is implementing best practice to ensure that Police Scotland achieves Best Value. This is consuming any opportunities identified within the PCIP.

### 3. Community Benefit Summary

#### 3.1 Introduction

In addition to the sustainable procurement duty within the Procurement Reform (Scotland) Act 2014, the Police and Fire Reform (Scotland) 2012 requires the SPA and Police Scotland to carry out procurement in a way which achieves sustainable development.

In order to achieve this, consideration of community benefits is built into the contracting process for all regulated contracts with standard clauses inserted into relevant tender and contract documents.

The Sourcing Strategy document that is created for all regulated procurements includes a sustainability section that details opportunities relating to SMEs, Supported Businesses, Community Benefits, Environmental Benefits and Fair Working Practices for the individual tenders and contracts.

When a sourcing strategy highlights the ability to secure community benefits in a particular procurement, they are incorporated within the tendering, evaluation and contractual documents. This standardised approach for all regulated procurement will promote the consideration of this key topic within the stakeholder group and the supply base for Police Scotland.

#### 3.2 Community Benefits Summary

During the year, Police Scotland secured community benefits which delivered 6 apprenticeships, 5 work experience/placement opportunities offered along with a number of other benefits such as donations to local charities, interaction with schools, partnerships with Police Scotland and local council to improve and address anti-social behaviour issues in the local community. Some specific examples are provided below:

- **PROC 18/19 - 226 - Provision of Occupational Health Services**
  - ✓ One (1) Apprenticeship Placement relating to Occupational Health (sports/science);
  - ✓ One (1) Apprenticeship relating to Administration (office-based work);
  - ✓ Volunteers and Sponsorship for the new "Baltic Street Adventure Playground" in Dalmarnock, Glasgow;
  - ✓ Support for local foodbanks.
- **PROC 18/19-519 - Heritable Asset Valuations**
  - ✓ Work placements within the geography of the contract;
  - ✓ Sponsorships of local sports teams and charity events;
  - ✓ In partnership with Police Scotland and Drumchapel Community Council, Supplier property management team implemented various initiatives in order to address and improve anti-social behaviour issues at Drumchapel Shopping Centre.
- **PROC 18/19-710 - Supply, Delivery and Installation of Office Furniture**
  - ✓ Potential to offer apprenticeship's within store, office and warehouse facilities based in Livingston;
  - ✓ Potential to work with local community projects with the up-cycling of furniture products.
- **PROC 18/19-711 - Supply of Furniture Removal, Disposal and Storage Services Framework Agreement**
  - ✓ Support Scottish Start Up Businesses through their supply chain;
  - ✓ Item donations to local charities;
  - ✓ Apprentice Opportunity (x3)
  - ✓ Work Experience Placements (x4)
  - ✓ Item donations to local charities
- ✓ **Soft Facilities Management**
  - ✓ Training Opportunities

- ✓ Work Placements
- ✓ Career Development Support
- ✓ Employment for persons long term unemployed
- ✓ Employment for persons not in employment, education or training.

## 4. Supported Businesses Summary

Police Scotland consider the involvement of supported businesses when determining the strategy for all regulated procurement exercises, in particular, considering the use of the Scottish Government framework for supported factories and businesses where such requirements fall within the scope of that framework. Where appropriate specific contracts are reserved to supported businesses. The following contracts are in place with supported businesses.

Our current contract for the Provision of Services for the Disposal and Recycling of Redundant ICT and Waste Electrical Equipment is with Haven Recycle. This was tendered on the open market exercising the right to reserve contracts for Supported Businesses and Supported Employment Programmes for the integration of disabled or disadvantaged persons.

Our current contract for the Provision of Services for the Supply & Delivery of Portable Road Signs & Associated Products is with Haven Products Ltd t/a Haven Sign Factory. This was award in August 2018 under the Scottish Government framework for supported factories and businesses.

## 5. Future Regulated Procurement Summary

Police Scotland's regulated contract register is publicly available on Public Contract Scotland <https://www.publiccontractsscotland.gov.uk/> this provides details of live regulated contracts including start and end dates, as well as noting renewal expectations and extension options available.

Police Scotland also maintain an internal procurement activity tracker for future activity including renewals and new requirements. An extract of the work planner is provided in Appendix 2 below which covers contracts expected to be awarded within the 2 years from January 2020 to December 2021.

In addition, The United Nations Framework Convention on Climate Change (UNFCCC) 26th Conference of the Parties (COP 26) will take place in Glasgow between the 9th and 20th November 2020.

It is anticipated this will attract around 40,000 attendees, peaking at 15,000 on the busiest day. In addition, 3,000 media, observer states and personal staff will see this overall figure rise to 90,000 attendees over the period.

It is expected that 197 Heads of State will attend the conference (for a period of between 1 and 3 days).

Police Scotland have commenced Operation Urram to prepare for policing of the event. It is likely that this will result in several major procurement exercises, further details will be published through Public Contracts Scotland as requirements are identified.

---

## Appendix 1 – Regulated Contracts Awarded between 1 April 2018 and 31 March 2019

Corporate					
Date of Award	Supplier	Subject Matter	Estimated Value of Contract	Start Date	End Date
01/04/2018	Hays	Recruitment Services for Temp Finance Posts	£ 990,000.00	01/04/2018	31/03/2020
