### Weekly Crime by Division

■ 2019/20 ■ 2020/21

All Crime Groups (with the exception of Group 1) show a decrease in volume when the preceding weeks volume is compared to the same period in 2019. Most divisions this week have noted a decrease in crime volumes, however there are two exceptions, Forth Valley and Lothian & Scottish Borders.

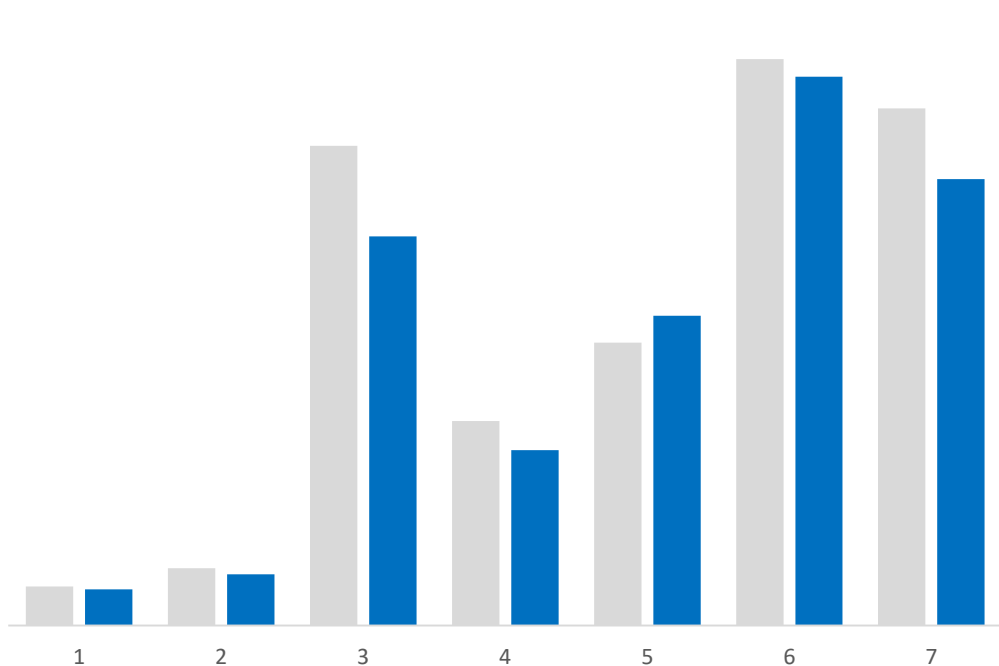

Please note, crime figures for Forth Valley have been revised. Comparisons to previous weeks figures should not be made due to a previous reporting error for the division.

More information regarding Crime Groups can be found [via this link](#)

# Weekly Legislation Co-operation (6<sup>th</sup> August – 12<sup>th</sup> August 2020)

Weekly Cooperation Levels

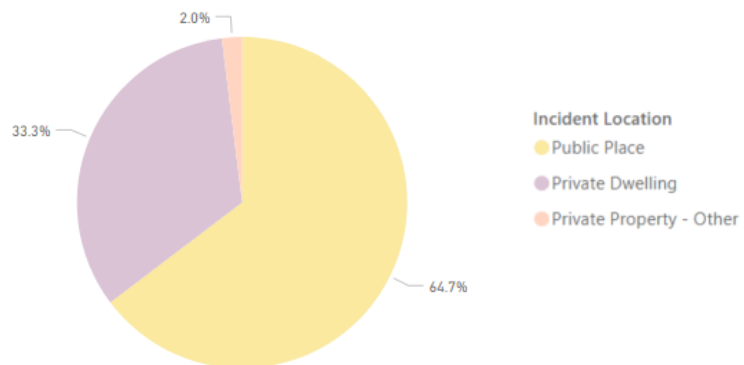

Interaction Totals (Preceding Week)

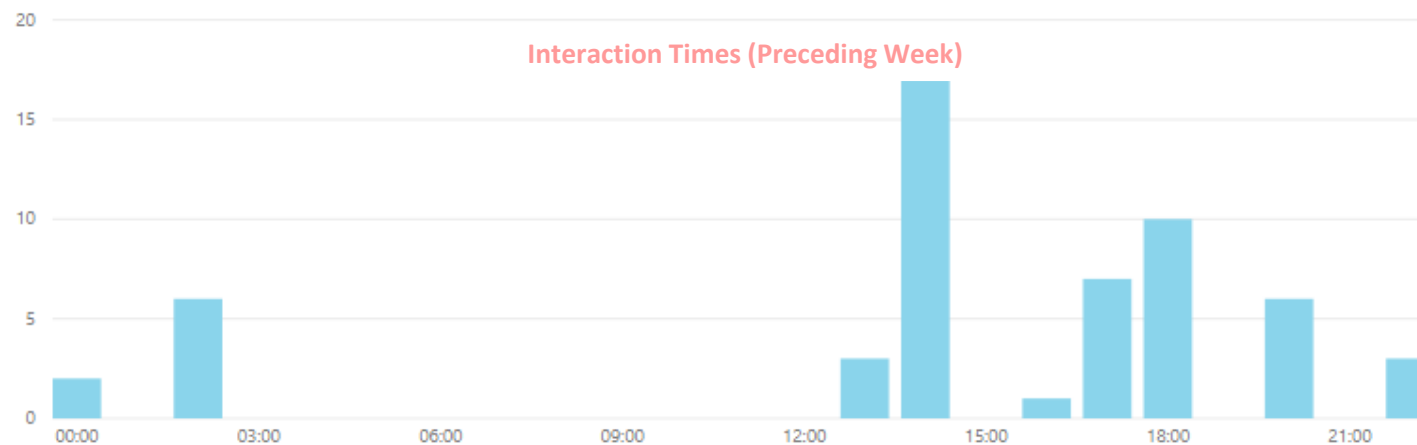

An 'interaction' is any instance where a Police Officer has reason to engage with a person who is not conforming with Legislation. Only when all efforts to encourage co-operation fail will Police Officers resort to enforcement.

Weekly Intervention Locations

Interaction Times (Preceding Week)

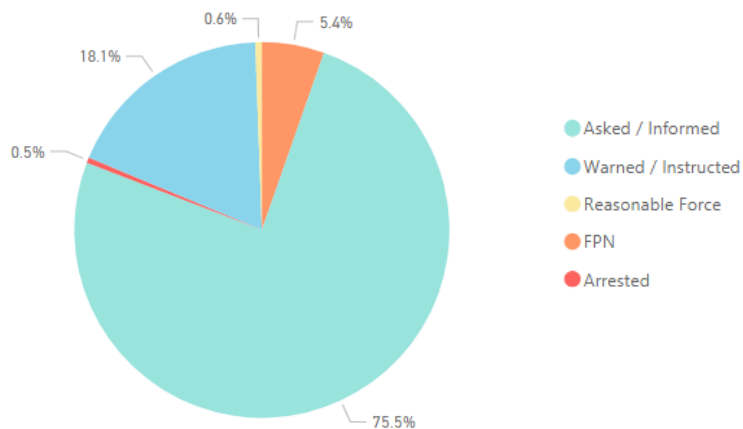

In response to the introduction of The Health Protection (Coronavirus) (Restrictions) (Scotland) Regulations 2020 and Coronavirus Act 2020, Police Scotland developed a 'Coronavirus Interventions' (CVI) recording system. This system allowed Police Scotland to begin gathering data in relation to the public co-operation levels with the new legislation. This system relies on Police Officers manually updating the system with the co-operation level when they encounter an individual in contravention of the new legislation.

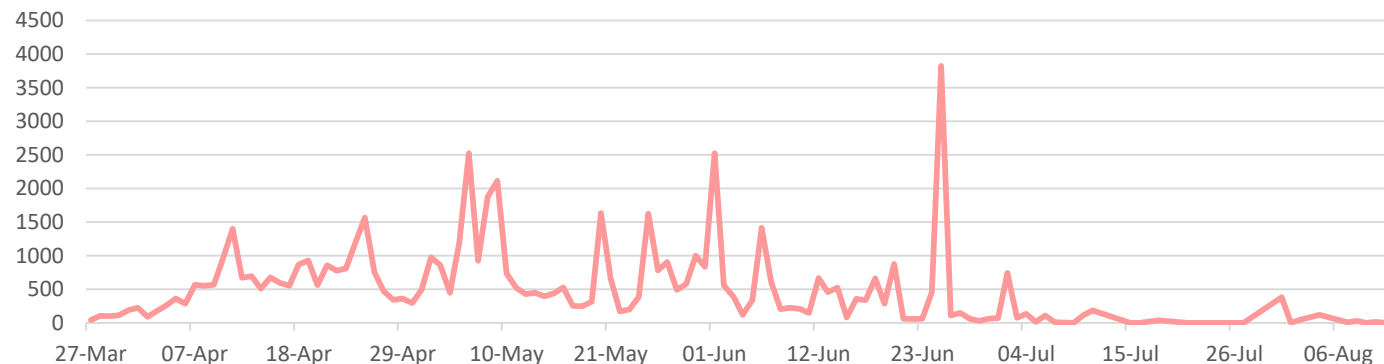

**Due to the manual input required to form this data set, the contents of this slide are indicative only. Actual figures will differ from those recorded on Crime Systems (please see slide 11), may be subject to change, and cannot be considered Official Police Statistics. They do provide an indication of the public co-operation levels across Scotland.**

# 'Enforcement' of Coronavirus specific legislation

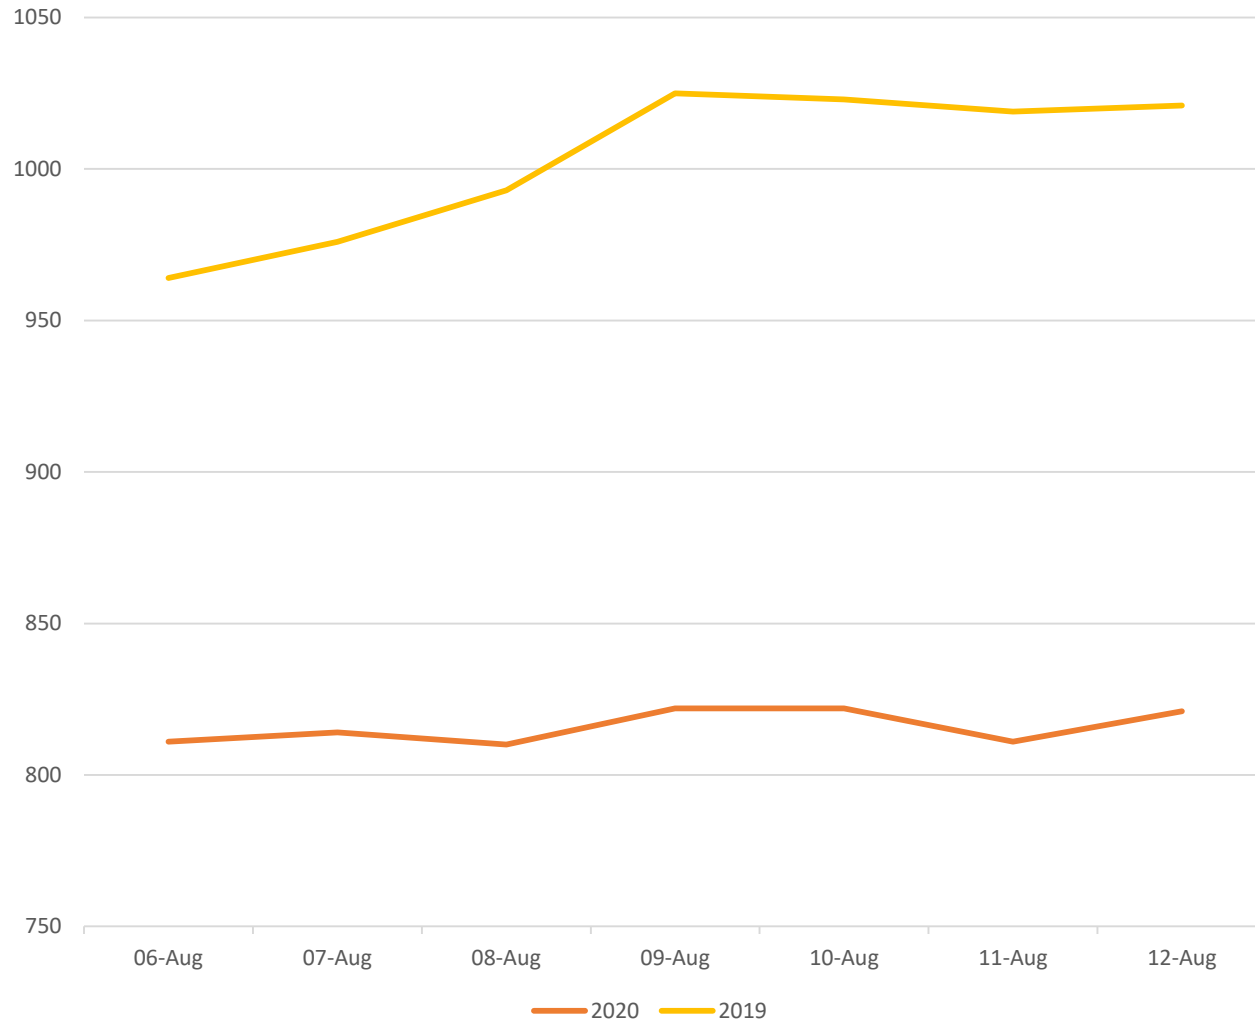

The following is a summary of all 'enforcement' action in relation to both The Health Protection (Coronavirus) (Restrictions) (Scotland) Regulations 2020 and Coronavirus Act 2020. This includes all Fixed Penalty Notices issued and processed by Police Scotland. It also includes all occasions that a charge was libelled and recorded on Police Scotland's Crime Recording System against a person in relation to the aforementioned legislation. This is a true value of the volume of recorded 'enforcement' activity, but does not provide the granularity of the Coronavirus Intervention (CVI) recording system and does not capture the earlier phases of the '4 E's' approach. These values remain subject to change as offences are retrospectively added or amended and do not match the indicative 'enforcement' values from the CVI recording system.

# Near Miss and Testing Data (w/e 23<sup>rd</sup> March – 10<sup>th</sup> August 2020)

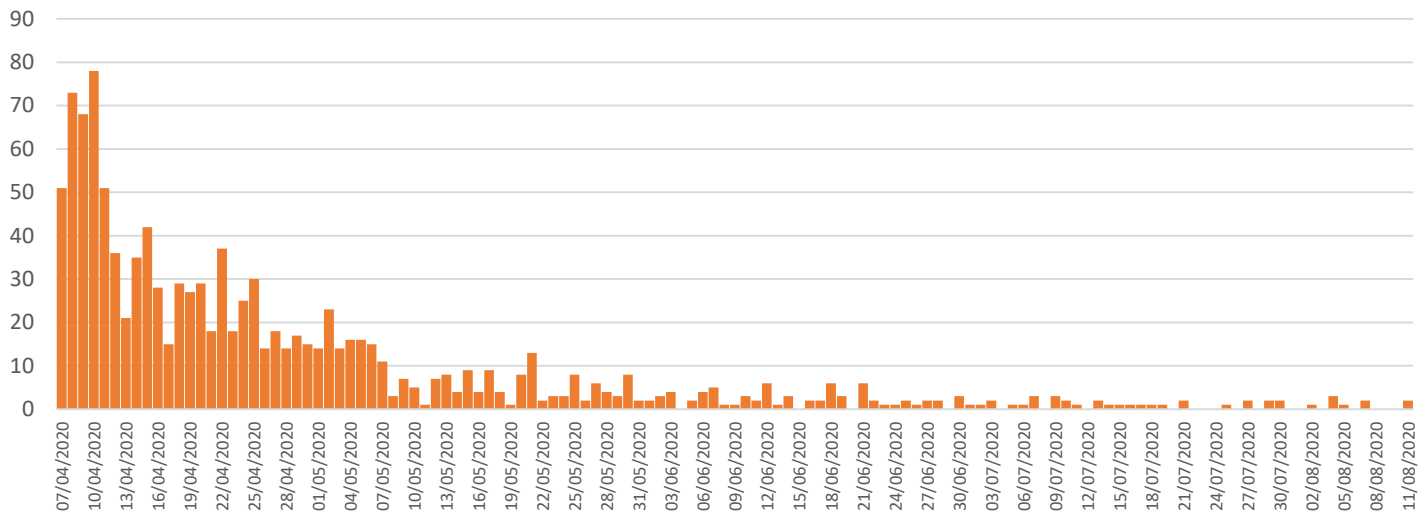

'Near miss' forms in the context of the pandemic situation may be submitted for a variety of reasons. i.e. when officers are potentially exposed to: COVID-19 whilst not wearing PPE, where PPE malfunctions, or in any other instance an officer feels a risk to themselves in a specific occurrence relating to COVID-19.

This can occur due to the reactive nature of policing, as well as being influenced by training levels and supply of PPE. The number of forms have decreased over the last week.

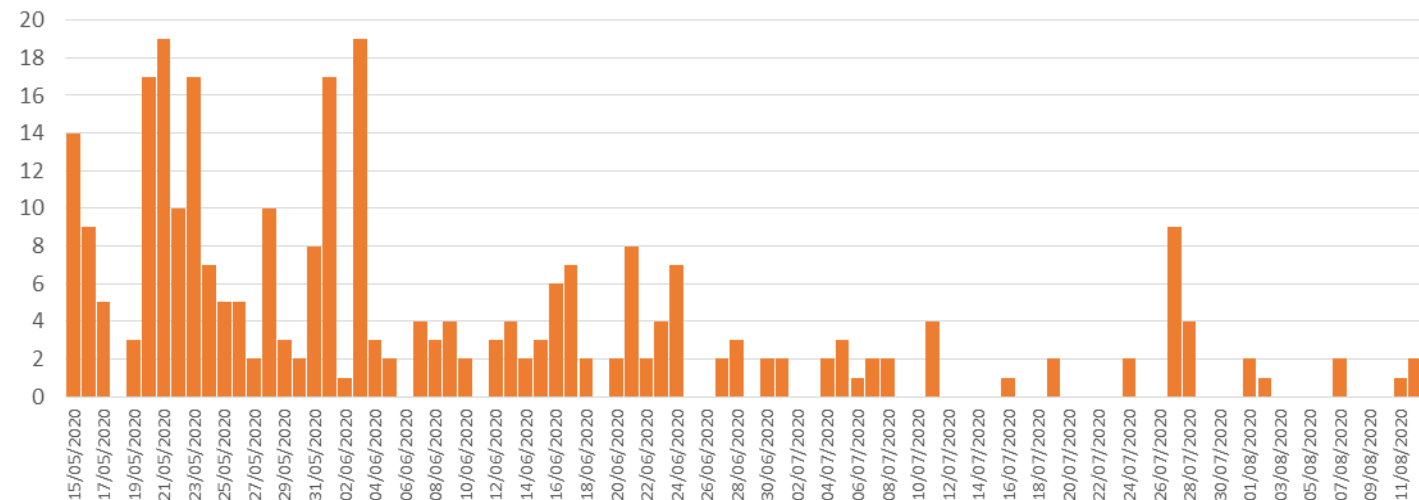

The amount of forms submitted continues to be attributable to the process for requesting an asymptomatic COVID-19 screening test due to an occupational risk, requiring the submission of a 'near miss' form. Many of the reports would not have been submitted without this requirement. The number of incidents where a lack of PPE is identified has not risen.

# Testing Data (7<sup>th</sup> April – 12<sup>th</sup> August 2020)

### Symptomatic Testing

Locally arranged tests may refer to Divisional arrangements, self arranged tests or those arranged by the NHS.

\*Work has been undertaken resulting in some duplication of results being corrected which has resulted in a drop, particularly with regards to self referral reporting data, of positive and some negative cases.

\*Please note Testing Data is now being reported weekly. The last Testing data report was received on 10<sup>th</sup> August 2020 and includes tests arranged up to and including 12<sup>th</sup> August 2020.

# Custody Volume

The below line graph displays the total custody volume over time. The number of custodies fell on the approach to 'lockdown', reaching their lowest level on 29<sup>th</sup> March. Since that date Custodies have steadily increased and have now levelled off. Please note custody volume figures are only available up to 9<sup>th</sup> August due to a change in reporting timescales.
