OFFICIAL

All statistics are provisional and should be treated as management information. All data have been extracted from Police Scotland internal systems and are correct as at 03/03/2022.

On the 12th June 2019, CRaSH was implemented within D Division. On the 3rd July 2019, CRaSH was implemented across the other Police Divisions within Police Scotland. CRaSH replaced the existing procedures for recording Road Traffic Collisions. Please note that the data is subject to change and will be updated on the next extract of data from CRaSH on 3rd April 2022.

Please note that a reportable collision is defined under Section 170 of the Road Traffic Act 1988 and describes the legal responsibility on those drivers involved to report the matter to the police. Where those involved exchange personal details, there is no legal requirement to report a collision to the police and this applies particularly to non-injury collisions.

As such, there may have been other collisions within the location of your request, which were not reported to Police Scotland, nor which required a collision report to be created, and will therefore not be included within the statistics.

Should you require any further assistance please contact Information Management Dundee, quoting the reference number given.

If you are dissatisfied with the way in which Police Scotland has dealt with your request, you are entitled, in the first instance, to request a review of our actions and decisions.
