**Work done to promote the use of Asset Transfer Requests
and support Community Transfer Bodies to make requests**

Information about Asset Transfer is published on a dedicated page on Police Scotland's website where links to the Scottish Government guidance are available as well as information on our own procedures and contact details for the submission of

enquiries and applications relating to asset transfer. We have prepared an application form (available on the website) and an internal template to assist our tactical group in making decisions on applications.

Members of our Legal and Estates teams have attended seminars and workshops on Community Empowerment and Asset Transfer. We regularly engage with the Community Ownership Support Service and encourage community bodies applying for asset transfer to do so as well.

We have had numerous enquiries from other community bodies about potential asset transfers and we are actively engaging with those bodies to assist them with their applications.
