FREEDOM OF INFORMATION (SCOTLAND) ACT 2002

I refer to your recent request for information which has been handled in accordance with the Freedom of Information (Scotland) Act 2002.

For ease of reference, your request is replicated below together with the response.

In follow-up to IM-FOI-21-2400:

We would appreciate some clarification as to the meaning of a road traffic matter as opposed to a road traffic accident or collision.

A Road Traffic Collision is recorded when a member of the public contacts police and states that a Road Traffic Collision has occurred.

A Road Traffic Matter is recorded for all other Road Traffic Matters that involve police. This may be for example, inappropriate parking or an animal loose on the road. However on occasion a member of the public may contact police and depending on the content of the communication it may be that initially Road traffic Matter is recorded, however after police attendance it is determined that a Road Traffic Collision has taken place.

As such, on occasion, Road Traffic Collision data can be contained within the Road Traffic Matter data and the reverse is also true.

In addition, we have enclosed an image highlighting a specific part of Kilbowie Road. We would appreciate if you could provide us with details of any road traffic accidents, collisions and matters occurring specifically on this part of the road.

In response to your question I can advise that the specified area was selected using GIS Mapping. The Grid East and Grid North recorded on the Road Traffic Collision Report was plotted and records on the specified area of Kilbowie Road have thereafter been selected.

From the records I can advise that during the time frame 1st January 2018 - 1st August 2021, one Road Traffic Collision has been recorded within the area mapped. The collision severity is recorded as slight.
