Subject: Resource Spending Review published

Good afternoon,

We hope this email finds you well. We're getting in touch to provide you with an update on the Resource Spending Review.

Firstly, we would like to say thank you for your response to the Resource Spending Review Framework consultation and / or participation in our complementary programme of external engagement. The information that we received through these processes was analysed and used to inform the final outcome of the spending review. It will also be used to support future Scottish Government work on the public finances.

In addition, we wanted to let you know that the Resource Spending Review was published today. The Cabinet Secretary for Finance and the Economy made a statement to the Scottish Parliament earlier this afternoon to announce the publication. In addition to the spending review, we have also published a consultation analysis report detailing the output of the consultation and engagement exercise.

Please see the this [link](#) for a webpage that contains links to the Resource Spending Review, the analysis of consultation responses and other related documents.

Thanks once again for your contribution,

Resource Spending Review Team
