Foreword

I am pleased to introduce the Renfrewshire Local Policing Plan (LPP) 2020-23.

I was proud to be appointed Divisional Commander of Renfrewshire and Inverclyde in February 2021 and I would firstly like to thank my predecessor Chief Superintendent Alan Murray (now retired) for his commitment and dedication to policing this area before my arrival in post.

Much has changed since the compilation of the last report in 2016, as such we have re-examined our priorities in order to respond to new challenges.

In developing our Local Policing Plans for 2020-23 we consulted widely with our stakeholders - the public, partner agencies and our staff. Accordingly, we developed our plans which identify our goals for the next three years, these plans will address priorities and tackle the things that you identified as mattering to you most.

This plan builds on the strong foundations already in place, with a continuing emphasis on road safety, thefts, drug misuse, disorder and crimes of violence.

I am pleased to have seen significant improvements in how

we protect vulnerable people, such as the introduction in 2019 of the 'Navigator' programme.

However there is still progress to be made and with the introduction of the Contact Assessment Model (CAM) examining the 'Threat and Risk' of each call I would expect to see continued improvements in this and other areas.

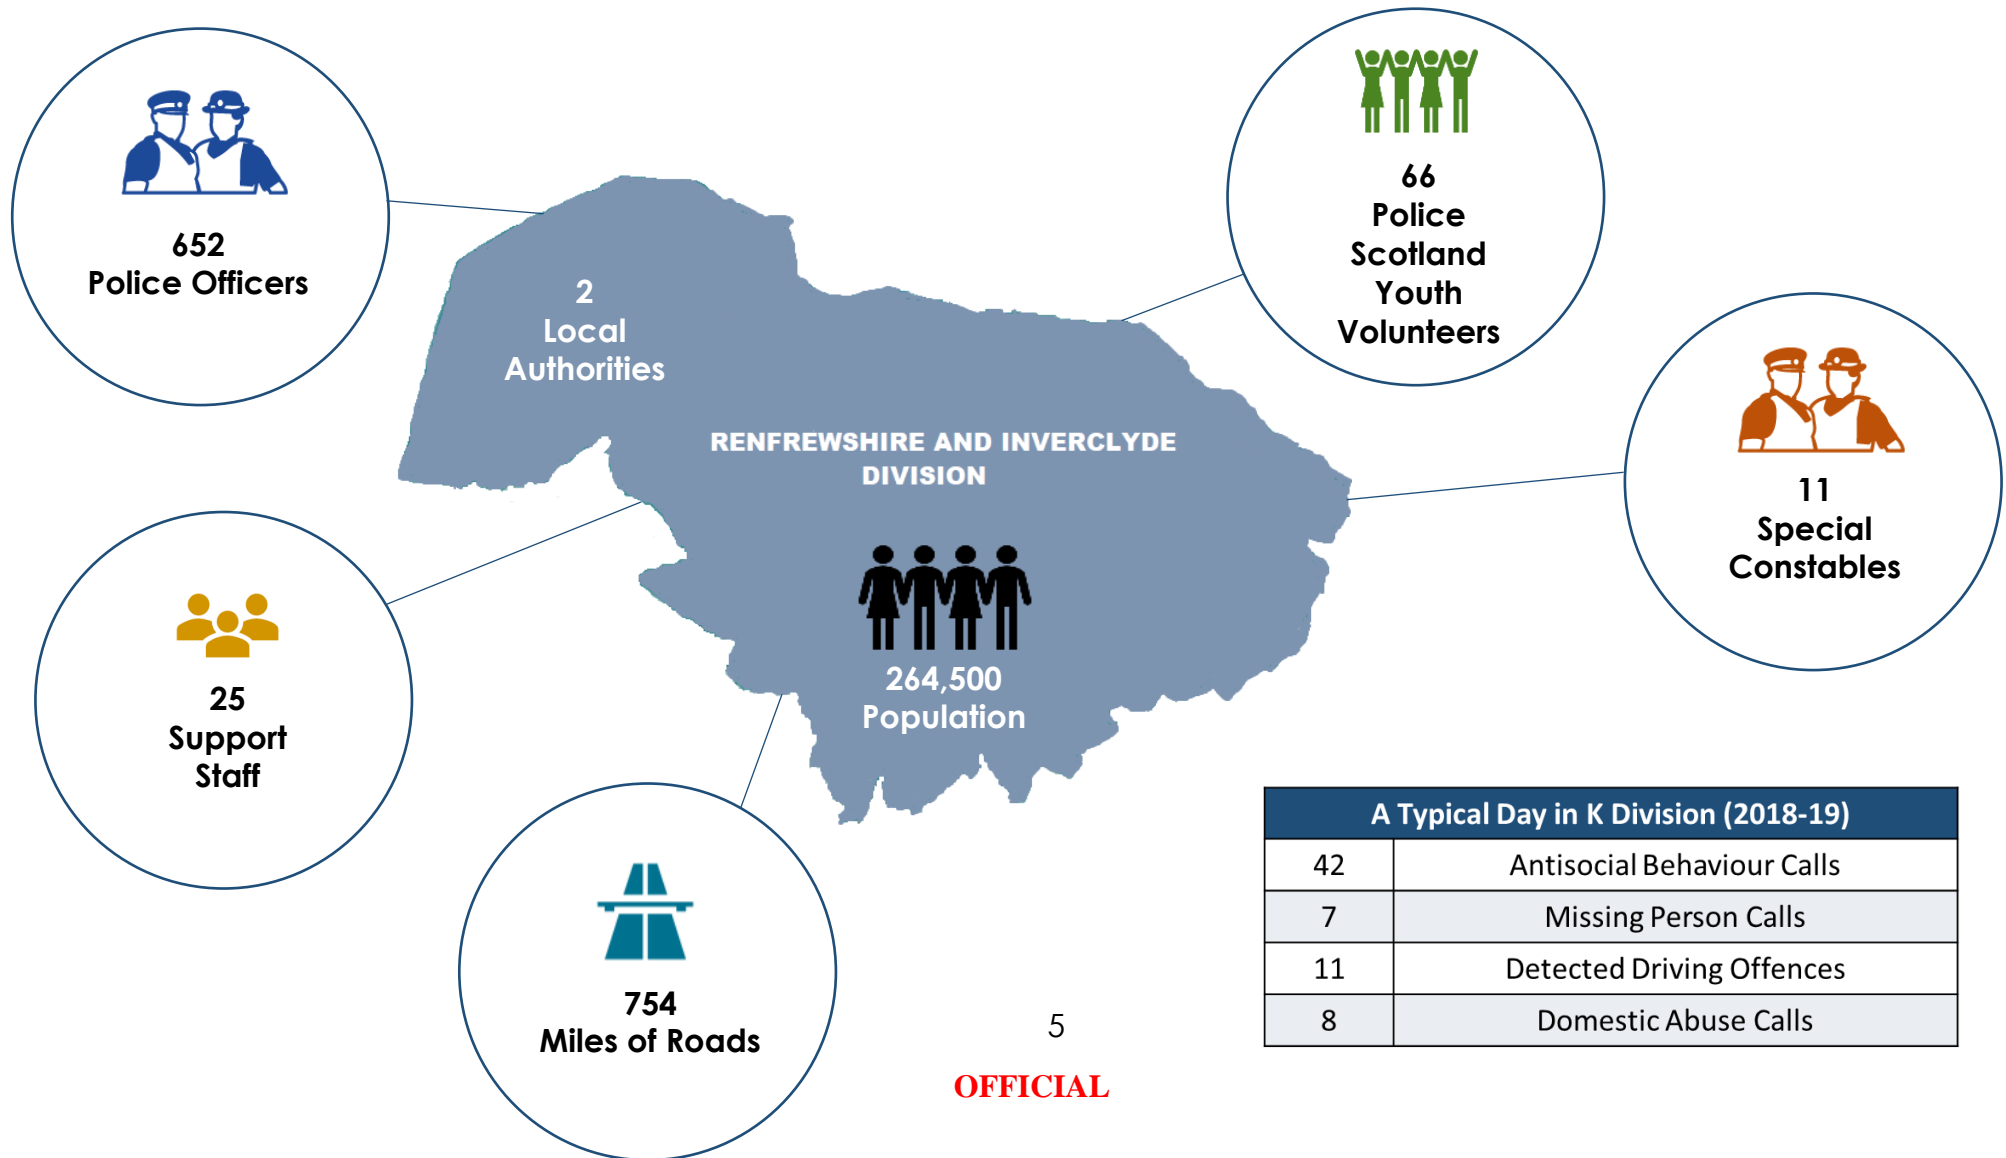

We will continue to work hard to increase public and partner satisfaction within policing, if we get it wrong, we will learn and when we get it right, we will strive to build on our success.

I look forward to delivering this plan and to providing you with regular updates.

David Duncan
Chief Superintendent,
Renfrewshire and Inverclyde

K Division – Your policing area on a page

How we identified our priorities

As part of our planning approach we undertook a period of engagement throughout 2019 to allow the public and our partners to provide feedback to us regarding our strategic direction and the content of this plan.

This feedback was captured and used to shape the final version of the plan. Further information about this and our wider engagement can be found in our consultation hub at: <https://consult.scotland.police.uk/>

The priorities and outcomes referenced in this plan were identified through a number of sources and processes which include:

- Police Scotland's Strategic Assessment 2020-23 for Renfrewshire & Inverclyde Division which details threats that impact on Policing at both divisional and Local Authority level.

- Community consultations.
 - 'Your View Counts' 2019 public and partner survey.
 - 'Your Police' 2019 public and partner survey.
 - 'Your Home, Your Street, Our Community' surveys.
- Renfrewshire Community Planning Partnership Local Outcome Improvement Plan 2017-27
- Police Scotland's Annual Police Plan
- Policing for a safe, protected and resilient Scotland, the Joint Strategy for Policing (2020)

All of these sources have provided critical information in identifying what is important to the diverse communities within Renfrewshire and as such we have structured our resources to meet these demands.

Local Outcome Improvement Plan - Renfrewshire

The 'Our Renfrewshire' 2017-2027 Community Plan acts as Renfrewshire's Local Outcome Improvement Plan (LOIP).

It is published by the Renfrewshire Community Planning Partnership, as required by the Community Empowerment (Scotland) Act 2015.

Please visit this site for further details:

<http://www.renfrewshire.gov.uk/communityplan>

This plan is intrinsically aligned to the Renfrewshire Community Planning Partnership LOIP 2017-2027.

The priorities for policing identified within this plan will, when achieved, contribute to the success of the LOIP, and the ultimately the strategic vision for the Renfrewshire area.

LOIP priorities:

Our priorities – policing on a page

Plan on a page

OFFICIAL

Our vision: Policing for a safe, protected and resilient Scotland
Our purpose: Improve the safety and wellbeing of people, places and communities
Our Values: Fairness, Integrity, Respect, Human Rights

Our local policing priorities

Antisocial behaviour, violence and disorder

Acquisitive crime

Road safety and road crime

Protecting vulnerable people

Serious organised crime

Counter terrorism and domestic extremism

Cyber and digital crime

Objectives

Engage with the public and communities to reduce and prevent crime

Reduce crime through preventing offending and reducing re-offending

Collaborate to reduce casualties and crime on our roads

Support people considered vulnerable through working with partners to reduce harm

Reduce the harm caused by serious organised crime including drugs supply

Prevent, Pursue, Protect and Prepare through collaborative preparedness

Address the threat from online and cyber crime through liaison with specialist resources

Strategic Outcomes

Threats to public safety and wellbeing are resolved by a proactive and responsive police service

The needs of local communities are addressed through effective service delivery

The public, communities and partners are engaged, involved and have confidence in policing

Our people are supported through a positive working environment, enabling them to serve the public

Police Scotland is sustainable, adaptable and prepared for future challenges

Our priorities in detail

Serious Organised Crime (SOC) takes many forms, many of which affect the communities in Renfrewshire.

The exploitation of vulnerable people by those who supply controlled drugs is one aspect of SOC which many people are aware of.

Renfrewshire and Inverclyde Division is committed to pursuing those responsible for supplying controlled drugs throughout the area through our local drugs initiatives and to working with partners to support those exploited by organised crime groups.

Those with addiction problems often find themselves in situations which are hard to escape. This is

a key area in which we as a division work collaboratively with partners, providing support and signposting services which may assist them break free from the circumstances in which they find themselves.

We are also working closely with partners to reduce the numbers of drug related deaths in the division.

Overall intention

- Increase the number of referrals to drug and alcohol services yearly
- Target suppliers of controlled drugs
- Identify and support victims of SOC

Police and partner aims - LOIP Outcomes

- Work to reduce the number of drug related deaths within the division.
- Increase uptake of drug treatment, through liaison with partnership access points.

Managing the more vulnerable members of our community in an effective way will allow both the police and other partner agencies to work together to provide a better-quality service, reduce problems that arise repeatedly and help reduce demand on services.

The police and other statutory partners have a critical role in protecting vulnerable people from abuse and exploitation.

Partner agencies in Renfrewshire and Inverclyde meet regularly to discuss how the vulnerable can be safeguarded from harm.

Victims of domestic abuse remain one of K Divisions top priorities. Newly introduced crimes associated with 'coercive and controlling behaviour' (commonly referred to as coercive control) will afford the Police greater opportunities for intervention in matters of

Domestic related crime.

There is growing evidence of human traffickers targeting and exploiting the most vulnerable, as well as concerns that vulnerable migrants could be exploited for the purpose of Serious and Organised Crime related to Drugs supply.

Overall intention

- Identify and support people considered vulnerable through working with partners to reduce harm

Police and partner aims - LOIP Outcomes

- Improve recognition within the division of mental health distress leading to referral pathways into appropriate support agencies.
- Provide access to appropriate care and support for those in contact with the criminal justice system.
- Increase awareness of 'hidden' forms of abuse including coercive control, stalking, harassment and work to improve criminal justice outcomes for the victims who experience such.

Anti-social behaviour can have a significant impact on a victim's quality of life. Increasing the confidence of our communities around this issue is very important, as is providing reassurance that it is an issue which is taken seriously. However, this is not an issue which the police can tackle on their own: it takes a partnership approach involving the community and a range of agencies.

There are a range of powers and options available to partner organisations to tackle the issue of anti-social behaviour and we will work with our partners and the community to utilise the options available to ensure that anti-social behaviour continues to fall, and that public confidence in relation to this issue improves.

Violent offending also remains a concern, it is imperative that we take positive action to address violent crime, particularly in regard to the carrying and use of knives.

We will commit to ensuring that the criminal justice system is as effective as it can be in turning lives around and stopping people offending, or reoffending. We will also continue to support early intervention initiatives and awareness raising in order to reduce crime and make our communities safer.

Overall intention

- Engage with the public, communities and partners to reduce and prevent crime.

Police and partner aims - LOIP Outcomes

- Provide victims of anti-social behaviour who feel targeted and all vulnerable victims with support and real understanding.
- Work with partner organisations to efficiently tackle anti-social behaviour and to meet the demands of local communities.

Road safety remains a key concern for the public across the division. People are particularly concerned about speeding vehicles, and dangerous driving.

Education is a key tool in making our roads safer and our division will continue to support both proactive initiatives and educational campaigns.

We will ensure that both Police and partners address road safety concerns, especially amongst vulnerable groups such as younger people, cyclists and pedestrians.

Overall intention

- Collaborate to reduce casualties and crime on our roads.

Police and partner aims - LOIP Outcomes

- Commitment to effective divisional policing of roads leading to improved road safety.
- Ensure that specialist services are shared and delivered in the most effective way across national and divisional boundaries.
- Utilise the new technologies that are now available to divisional officers such as Automatic Number Plate Recognition (ANPR) that provide opportunities for preventing and detecting road crime.

Theft and especially housebreaking are crimes which can have a profound personal impact.

They are crimes in which alcohol and drug misuse feature highly.

Reducing re-offending requires tackling drivers of crime, such as the use and supply of illicit substances.

Our division will continue to work with partner agencies to ensure high risk and high harm offenders across the acquisitive crime spectrum are being managed appropriately.

Overall intention

- Reduce acquisitive crime through preventing offending and reducing re-offending.

Police and partner aims - LOIP Outcomes

- Commitment to work with criminal justice partners on processes to identify and refer individuals in contact with the criminal justice system into appropriate support services.

The Government's CONTEST strategy (Prevent, Pursue, Protect and Prepare) shapes our national response to counter-terrorism.

An important approach to preventing radicalisation, extremism and terrorism is the PREVENT strategy.

The CONTEST strategy is designed to safeguard individuals, and vulnerable people in particular from exploitation from extremists.

PREVENT training is delivered to front-line professionals in contact with vulnerable people, such as education, health, social services and police.

This strategy builds on work demonstrating that local communities can help to prevent and protect themselves from radicalisation.

There are identified concerns in relation to exploitation of those with mental health issues, those

within the prison estate and other vulnerable groups in relation to the risk of radicalisation.

We will continue to engage with communities across our division to understand concerns, reassure, and raise awareness of counterterrorism measures.

Local policing within Renfrewshire and Inverclyde Division is integral to minimising the risk of terrorism by preventing radicalisation, protecting public places, transport systems and critical infrastructure from attack.

Overall intention

- Prevent, Pursue, Protect and Prepare for Terrorism and Domestic Extremism through collaborative preparedness.

Police and partner aims - LOIP Outcomes

- Coordinated public awareness messages, campaigns and approaches by police and partner agencies tackling terrorism and domestic extremism.
- Better engagement and information sharing between police and partner organisations to support the vulnerable with the aim of preventing exploitation.

Cybercrime has grown dramatically as the internet and social media provide the opportunity to commit crime and enable some crime types to be committed on a vast scale.

Cybercrimes such as grooming, child sexual exploitation, fraud, data theft, phishing, trolling, malware, online scams, revenge pornography, stalking, and harassment are all on the rise.

However much of this criminality still remains unreported, unrecorded and as a result the extent of it may not be fully understood.

Much of this crime is preventable by implementing simple safety measures.

As such a greater emphasis will need to be made on raising awareness among young people, their parents and other vulnerable adults on the potential dangers of cybercrime.

Overall intention

- Address the threat from online and cyber-crime through education, liaison with specialist resources and detecting offenders.

Police and partner aims - LOIP Outcomes

- Continue the coordinated approach by police and partner agencies to improve public awareness of measures to protect themselves from cybercrime, particularly targeting those most at risk.
- Improved use of technology by police, in order to prevent crime and support earlier intervention with offenders such as the recent introduction of cyber kiosks.

How we will achieve our outcomes – working together

Renfrewshire Community Planning Partnership revised its governance arrangements in 2016 in order to reflect the requirements of the Community Empowerment Act (Scotland) 2015 and changes that have emerged over years to partnership working structures in Renfrewshire.

The main partnership groups that drive forward the delivery of the Community Plan are:

Economic Leadership Panel

This group informs Renfrewshire's Economic Framework, with members across the private and public sector, with a strong focus on Renfrewshire's business community.

Health and Social Care Strategic Planning Group

This group is part of the Health and Social Care Partnership's governance arrangements, and reports directly to the Health and Social Care Integrated Joint Board.

Community Protection Chief Officers Group

This group brings together the Chief Officers of organisations across Renfrewshire with public protection role. Connected to this, there is also a Member Officer Group' which brings together elected members and key officers, and has a scrutiny role.

Improving Life Chances Board

This is a new group which will be established to take forward partnership work around life chances and inequalities.

Forum for Empowering Communities

This group provides a key link between the Community Planning Partnership, the third sector in Renfrewshire, and our communities.

Community Planning Partnership Executive Group

Chaired by the Chief Executive of Renfrewshire Council and comprised of Chief Executive level officers across the Partnership.

Community Planning Partnership Oversight Group

Chaired by the Leader of Renfrewshire Council, and comprising conveners of the Council's policy boards and a

member of the Opposition Group.

Accountability and performance

Effective scrutiny and oversight are key elements to ensure that policing retains the trust and confidence of the communities of Scotland. The governance structures outlined below are

Scottish Police Authority (SPA)

Police Scotland presents quarterly performance reports to the SPA, informed by our performance framework, providing evidence relating to the delivery of the outcomes and objectives within the Police Scotland Annual Police Plan.

These updates are presented at SPA full board meetings and available online.

Justice Sub-Committee on Policing

Key policing issues are discussed by the Scottish Parliament's Justice Sub-Committee on Policing.

Please visit this site for further details:
<http://www.parliament.scot/parliamentarybusiness/CurrentCommittees/policingsub-committee.aspx>

designed to ensure that Police Scotland provides a service that is relevant, legitimate and consistent with the principle of 'policing by consent'.

Please visit this site for further details:

<http://www.spa.police.uk/meetings-events>

Crime and performance statistics are also published by the SPA. Please visit this site for further details:

<http://www.spa.police.uk/performancepages/spaperformanceframework/>

Crime and Justice statistics are published by Scottish Government.

Please visit this site for further details:

<http://www.gov.scot/Topics/Statistics/Browse/Crime-Justice>

Renfrewshire Council Scrutiny

Each of Scotland's local authorities also have scrutiny arrangements in place to allow them to influence policing at a local level.

This successful partnership between local authorities and local Police Scotland divisions is evident in the close working relationships within Community Planning Partnerships and other local planning arrangements.

In respect of Renfrewshire Council, this is conducted via the 'Police and Fire & Rescue Scrutiny Sub-Committee'.

It has the remit of considering matters relating to the police service, including the Council's involvement with the Scottish Police Authority and Police Scotland, and arrangements for local policing. This includes the Council's contribution to the development and implementation of the Local Policing Plan.

Please visit this site for further details:

<http://renfrewshire.gov.uk/councilboards>

Her Majesty's Inspectorate of Constabulary in Scotland (HMICS)

HMICS provides independent scrutiny of both Police Scotland and the SPA to ensure they deliver services that are high quality, continually improving, effective and responsive to local needs.

Police Investigation and Review Commissioner (PIRC)

The PIRC undertakes independent investigations into the most serious incidents involving the police and provides independent scrutiny of the way police bodies operating in Scotland respond to complaints from the public.

Equalities

Police Scotland promotes equality and diversity, both externally and internally, striving to exceed the requirements of the Scottish Public Sector Equality Duty.

Across Police Scotland we are committed to developing and promoting best practice in the advancement of our Equality Outcomes.

In order to support this requirement, we embed equality, diversity and human

rights in all of our strategies, plans and in our performance framework.

The communities we serve in Renfrewshire and Inverclyde are increasingly diverse and complex, necessitating a more sophisticated response to the challenges we face both now and in the future.

Whether it be domestic abuse, cybercrime or new threats from serious and organised crime like human trafficking.

Equality and Human Rights Impact Assessment

Equality and Human Rights Impact Assessment (EqHRIA) is used to help us to ensure that policy and practices proactively consider the potential impact on equality and human rights.

This plan was subject to an EqHRIA.

In compliance with the Scottish Public Sector Equality Duty, a summary of EqHRIA results has been published alongside this document on our website: <http://www.scotland.police.uk>
