FREEDOM OF INFORMATION (SCOTLAND) ACT 2002

I refer to your recent request for information which has been handled in accordance with the Freedom of Information (Scotland) Act 2002.

For ease of reference, your request is replicated below together with the response.

I would like to know the following information:

- **How many electric vehicles does the force have and what % of their total fleet of vehicles does this represent?**
- **How many EVs were purchased by your force and what % of total vehicle purchases does this represent for 2021?**
- **How many EVs were purchased by your force and what % of total vehicle purchases does this represent so far for 2022?**
- **What are EVs used for in the force e.g. neighbourhood police, dog patrol etc. Please be as detailed as possible with numbers for each use case?**

Firstly, I must advise that all Police Scotland vehicles are part of a national fleet.

Having considered your request for the information relating to electric vehicles in policing, in terms of the Freedom of Information (Scotland) Act 2002, I am refusing to confirm or deny whether the information sought exists or is held by Police Scotland in terms of section 18 of the Act.

Section 18 applies where the following two conditions are met:

- It would be contrary to the public interest to reveal whether the information is held
Whilst we accept that you may have a particular personal interest in being informed as to whether or not the information sought is held, the overwhelming public interest lies in protecting individuals' right to privacy and the expectation of confidence that the public have in Police Scotland as regards their information.
- If the information was held, it would be exempt from disclosure in terms of one or more of the exemptions set out in sections 28 to 35, 38, 39(1) or 41 of the Act

I consider the following exemptions applicable.

Section 35 – Law enforcement

OFFICIAL

Information is exempt information if its disclosure under this Act would, or would be likely to prejudice substantially the prevention or detection of crime and the apprehension or prosecution of offenders.

Disclosure of the requested information would impact on the process of investigating this case. One of the main purposes of the Police Service is to prevent crime but to release this information would be contrary to that purpose.

This is a non-absolute exemption and requires the application of the public interest test.

Section 39(1) – Health, safety and the environment

The release of this information would circumvent the efficient and effective provision of law enforcement by the police service for the reasons described above. This would in turn increase the risk to the personal safety of individuals and to the safety of the police officers responding to incidents.

This is a non-absolute exemption and requires the application of the public interest test.

Public Interest Test

I recognise that public awareness would favour a disclosure as it would contribute to the public debate surrounding the overall nature of vehicle resources available for deployment by the Police.

I would, however, contend that the efficient/effective conduct of the service and public safety favours retention of the information as it cannot be in the public interest to release information that would prejudice law enforcement or which is likely to have an adverse impact upon public safety.

- **How much money was spent on fuel (petrol and diesel) in 2021?**

- **How much money has been spent on fuel (petrol and diesel) so far this year (2022)?**
