## Introduction

### What Is In This Report ?

This report makes management information about Police Scotland available to the public on a regular basis.

The management information presented here relates mainly to crime recorded by Police Scotland but some information about incidents and some survey data are also included.

Published alongside this report are a series of complementary reports providing a breakdown of data available at police division or local authority level.

### What Is The Purpose Of This Report ?

This report is intended to provide answers to questions about current crime levels in the different parts of Scotland. All data used in this report are provisional management information and not official statistics. This is the 2020/21 Q1 management information report covering the period 1st April to 30th June 2020. All data are correct at the published date and were extracted at the start of July 2020. These data are extracted from Police Scotland internal systems which are dynamic and continuously update as investigations progress.

This report contains the most up to date recorded crime data that was available at the start of July 2020 for Q1 of the financial year 2020/21. This is the same management information that is used by Police Scotland to inform operational decision-making on a daily basis and which is reported regularly to local scrutiny boards and the Scottish Police Authority.

### What Should This Report Not Be Used For ?

This means that this report is unsuitable for drawing longer term trend comparisons of crime types. If readers of this report are seeking time series analysis or trend information they should refer to the official statistics for recorded crime produced by Scottish Government <http://www.gov.scot/Publications/2015/09/5338> or the official statistics on reported road casualties published by Transport Scotland (<http://www.transportscotland.gov.uk/statistics/statistical-publications>).

### How Does This Report Deal With Changes To Data ?

The management information data for crime recorded in 2020/21 are provisional, because these are highly likely to experience re-classification and/or no-criming as investigations proceed. These data are highlighted in purple font on the tables throughout this report.

Readers should note that all data for 2019/20 and 2020/21 were refreshed when they were extracted at the start of July 2020. This means that the data for 2019/20 Q1 published in this report will differ from the data previously published for 2019/20 Q1 last August (2019). It usually takes between one and two quarters for the data to settle and for most of the natural revisions to take place. We have published a separate revisions analysis to demonstrate the extent of these changes.

## Group 5 Other Crimes continued

From the 1st of April 2017, a set of new codes was introduced to record cases of using an offensive weapon in a public setting to commit other criminal activity. The number of crimes recorded for these new codes is shown in Table 6a below. This change was introduced by the Scottish Crime Recording Board to better reflect how criminal law operates in this area. Prior to the 1st of April 2017, these crimes of offensive weapons used in another criminal activity or offence committed (for example a serious assault) were subsumed into that main crime or offence. The minutes of the Scottish Crime Recording Board meetings can be accessed here : - <http://www.gov.scot/Topics/Statistics/Browse/Crime-Justice/PubRecordedCrime/SCRB/SCRBmeet>.

The Scottish Crime Board has carried out a quality assurance exercise to confirm that the new information being produced from the recent introduction of these codes is accurate and in-line with the definitions set out in the Scottish Crime Recording Standard (SCRS). The results of this exercise can be accessed here:

<https://beta.gov.scot/publications/recorded-crime-scotland-handling-offensive-weapons/>.

The SCRS guidance manual can be accessed here :- <http://www.gov.scot/Topics/Statistics/Browse/Crime-Justice/PubRecordedCrime/SCRB/SCRSmanual>.

Police recording practice remains unchanged for crimes of possessing an offensive weapon in a public setting without further criminality. As in previous years this information is presented in Table 6 Group 5 'Other Crimes' recorded by Police Scotland and included in the total for Group 5 Crimes.

<sup>8</sup> This is the total of crimes recorded under the new classifications to identify knives and weapons used in the commission of another crime.

<sup>9</sup> Previously possession of an offensive weapon (not elsewhere specified) in a school would have been counted within the general possession of an offensive weapon category. In some areas, when a crime report is re-opened for auditing or amendment, the crime will automatically be re-classified to the new crime classification. This is why there are small numbers of these crimes recorded in the previous year.

<sup>10</sup> Previously having in a school an article with a blade or point would have been counted within the general Carrying of Knives etc S Act 1993 category. In some areas when a crime report is re-opened for auditing or amendment the crime will automatically be re-classified to the new crime classification. This is why there are small numbers of these crimes recorded in the previous year.

<sup>11</sup> These are new classifications introduced in April 2017 to capture knives and weapons where they have been used in commission of another crime.

## Group 7 Offences Relating to Motor Vehicles

During period to the end of Q1 2020/21 there were 26,742 Group 7 offences recorded.

### Speeding Offences

The number of speeding offences recorded was 5,129 during the period to Q1 2020/21.

### Drink, Drug Driving Offences (incl. fail to provide a specimen)

The number of drink, drug driving offences (incl. fail to provide a specimen) recorded was 2,200 during the period to the end Q1 2020/21.

### Seatbelt and Mobile Phone Offences

There were 437 seatbelt offences and 428 mobile phone offences recorded during the period to the end of Q1 2020/21.

### Table Description

Table 8 below shows the most up-to-date Police Scotland Management Information for 2020/21 Q1. All data for 2019/20 Q1 were refreshed when extracted on 2nd July 2020. This means that these figures will differ from data previously published in August 2019.

Recorded crime and offences may be subject to change due to ongoing investigations, new information coming to light, audit and review of crime and general housekeeping. A separate revisions analysis describing these changes is available at <http://www.scotland.police.uk/assets/pdf/138327/232757/management-information-revisions-analysis-Q12018>.

The data highlighted in purple font in Table 8 below are provisional management information and will be subject to change.

## Number of Road Traffic Collision Casualties

During the period to the end of Q1 2020/21, 14 people were killed on the roads. Over the same period there were 215 people seriously injured and 344 slight injuries were also recorded.

During the period to the end of Q1 2020/21, 19 children were killed or seriously injured on the roads. Official Statistics on reported road casualties are published by Transport Scotland (see link below)

(<http://www.transportscotland.gov.uk/statistics/statistical-publications>)

## Serious and Organised Crime

As at the end of 2020/21 Q1 there were 86 Serious Organised Crime Groups (SOCG) under investigation by Police Scotland. A further 15 SOCG are subject to HM Revenue And Customs (HMRC), Home Office Immigration and Enforcement (HOIE), National Wildlife Crime Unit (NWCU), and Trading Standards Scotland (TSS) investigation.

### The Proceeds of Crime Act 2002 (POCA)

As at the end of 2020/21 Q1, £16,251,345 was identified under POCA legislation. Cash and assets identified for restraint represented 99.66% of the total.

Restraint orders issued under POCA 2002, Section 120 empower the investigation and restraint of a person's assets and income where it is suspected that they are derived from criminal conduct. The total value of assets identified for restraint at the end of 2020/21 Q1 was £15,664,290 (96.37% of the total).

POCA legislation provides for the recovery of cash through civil proceedings in Sheriff Courts. The Act creates procedures for the seizure, retention, and forfeiture of cash which is either recoverable or intended by any person for use in unlawful conduct. Cash seizures at the end of 2020/21 Q1 totalled £530,749 (3.27% of the total).

Expedited and direct referrals allow assets to be seized from a person through civil procedures. Any assets that can be inferred to have come from a criminal lifestyle can be scrutinised and seized. Expedited and direct referral seizures at the end of 2020/21 Q1 totalled £8,535 (0.05% of the total).

POCA legislation provides for the seizure and forfeiture of items of personal property ('listed assets'), including precious metals and stones, which are suspected to be recoverable property or intended for use in unlawful conduct. Listed asset seizures at the end of 2020/21 Q1 totalled £15,740 (0.1% of the total).

Section 303 of POCA 2002 allows the police to apply to the Sheriff Court for an account freezing order. This application can be made for a balance of £1,000 or more if it is believed that the funds are recoverable property or intended for use in unlawful conduct. If granted it allows the balance in the bank account to be 'frozen' for a certified period of time to then allow further enquiries with a view to forfeiture of the funds. Account freezing order at the end of 2020/21 Q1 totalled £32,032 (0.2% of the total).

## Incident Analysis

### Incidents

Members of the public contact the police for a variety of reasons which generally result in an incident being created on the command and control incident management system. Where that incident infers a crime has been committed the police are required to raise a crime report, unless criminality can be disproved. Many other incidents are created, such as assisting the public or responding to requests for prevention activities, which do not result in a crime report being raised and which are managed solely on the incident management system.

There were 397,808 incidents reported to Police Scotland during the period to the end of 2020/21 Q1.

- There were 131,688 anti-social behaviour incidents (Public Reported).
- There were 146 reports of anti-social behaviour where alcohol is reported.
- Members of the public reported 7,531 assault related incidents.
- There were 14,002 reports of incidents relating to thefts and 4,049 reports relating to housebreakings.
- There were 34,549 transport related incidents reported to Police Scotland during the period to the end of 2020/21 Q1. 4,557 of these incidents related to road traffic offences.

## User Experience Survey (April 2020 to June 2020)

The User Experience Survey (UES) measures the level of satisfaction with how Police Scotland have dealt with members of the public who have contacted the Force to report crimes or incidents and, consequently, their level of satisfaction in the Force.

In January 2020, a redesigned and refreshed approach to understanding public experience was launched. The revised survey aims to evaluate our performance and effectiveness and is being conducted by an external agency to ensure the validity and robustness of research and insight.

Previously conducted by telephone interviews, this survey is currently administered via SMS and completed voluntarily online by respondents. This allows continued engagement with people who have contacted Police Scotland during the COVID-19

The number of User Experience Surveys conducted between April 2020 to June 2020 was 4,420 (compared to 3,547 User Satisfaction surveys completed in the corresponding period in 2019/20). The percentage of respondents who felt police provided the appropriate response to the incident reported was 66%.

### User Experience Survey

In the period April 2020 to June 2020, 53% of respondents stated that they felt adequately informed about the progress made with the incident they reported.

In the period April 2020 to June 2020, 80% of respondents were satisfied with the way they were treated by the officers who attended the incident. Based on their overall experience, 71% of respondents stated they were satisfied with Police Scotland.

#### Question

Q1: You contacted the police using [contact method from sample]. How easy was it to contact them?	82% (n = 3,605)	Very Easy or Easy
Q2: During the initial contact, how satisfied are you with the way you were treated by a staff member on the [contact method from sample]?	87% (n = 3,833)	Very satisfied or satisfied
Q3: Did you feel staff properly understood what you needed? (% Yes)	88% (n = 3,889)	Yes
Q4: Do you feel that the police provided the appropriate response to the incident you reported?	66% (n = 2,921)	Yes
Q5: Do you feel you were adequately informed about the progress made with what you reported?	53% (n = 2,012)	Yes
Q6: How satisfied are you with the way you were treated by the officers who attended the incident?	80% (n = 2,016)	Very satisfied or satisfied
Q7: Based on your overall experience, how satisfied are you with Police Scotland?	71% (n = 3,144)	Very satisfied or satisfied

## APPENDIX 1

### Explanatory Notes on Management Information

Crimes and incidents recording for 2020/21 Q1 covers the period 1 April 2020 to June 2020 (unless otherwise stated).

Each separate crime/offence is categorised under the national classifications and grouped together for ease of reference. Road traffic collisions recorded are determined by the severity of the injury sustained by the most seriously injured casualty.

Several crimes and offences may be recorded at an incident, e.g., a house may be broken into and property stolen, the premises vandalised and the householder assaulted. Three separate crimes would be recorded in this case. The system is based on the number of actual crimes/offences rather than on the number of incidents.

A crime/offence may have more than one victim and may also involve more than one offender. A crime or offence is regarded as having been detected where there exists a sufficiency of evidence under Scots Law to justify consideration of criminal proceedings. Many offences, e.g., speeding or possessing drugs, have no direct victim and are detected and recorded as a result of police activity.

This management information does not reflect the total incidence of crimes/offences or road traffic collisions, as not all incidents are reported to the police.

Unless otherwise stated, the population data used in the calculation of crime and incident rates is the mid-year 2019 population estimate published by the National Records of Scotland.
